

East Cambridgeshire District Council

Five Year Land Supply Report

1 April 2024 to 31 March 2029

Published 29 October 2024

This report forms part of the Council's on-going obligations to publish the 'authority's monitoring report'

Five Year Land Supply Report for East Cambridgeshire

Introduction

This Five Year Land Supply Report ('the Report' or 5YLS Report) is to be used for the purposes of decision taking from its publication on 29 October 2024.

Forecasting when and how sites will be built out is a key part of plan making and monitoring. East Cambridgeshire District Council (ECDC) is required to regularly produce trajectories to show how strategic policies identify a 5YLS, as well as the housing land supply for the entire Local Plan period and beyond.

A 5YLS Report normally comprises data about housing sites, especially those sites where they are expected to come forward to be build-out within the next five years. This is usually accompanied by a trajectory illustrating how many dwellings are expected to be delivered each year.

National Policy

This Report sets out the process for calculating the 5YLS based on the requirements of the current National Planning Policy Framework (NPPF) published in December 2023, and associated NPPG as regularly updated, **and** on the requirements of the proposed NPPF published for consultation in July 2024.

Part 1: 5YHLS Report based on December 2023 NPPF

1. Introduction

This part of the report undertakes the 5YLS calculations based on the currently published NPPF, dated December 2023. A new NPPF is anticipated in late 2024 or early 2025, and it is anticipated it will contain revisions to the policy and method for calculating land supply. An update of this 5YLS Report may be necessary at that point, albeit in Part 2 of this report we recalculate the position if the consultation draft NPPF July 2024 becomes the updated NPPF in due course.

The December 2023 edition of the NPPF itself changed the 'rules' on how to identify and calculate a 5YHLS, as well as the implications if supply is above or below five years' worth. The NPPF (Dec 2023) states:

76. Local planning authorities are not required to identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing for decision making purposes if the following criteria are met:

a) their adopted plan is less than five years old; and

b) that adopted plan identified at least a five year supply of specific, deliverable sites at the time that its examination concluded.

77. In all other circumstances, local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide either a minimum of five years' worth of housing, or a minimum of four years' worth of housing if the provisions in paragraph 226 apply. The supply should be demonstrated against either the housing requirement set out in adopted strategic policies, or against the local housing need where the strategic policies are more than five years old. Where there has been significant under delivery of housing over the previous three years**, the supply of specific deliverable sites should in addition include a buffer of 20% (moved forward from later in the plan period). National planning guidance provides further information on calculating the housing land supply, including the circumstances in which past shortfalls or over-supply can be addressed.*

**Unless these strategic policies have been reviewed and found not to require updating. Where local housing need is used as the basis for assessing whether a five year supply of specific deliverable sites exists, it should be calculated using the standard method set out in national planning guidance*

***This will be measured against the Housing Delivery Test, where this indicates that delivery was below 85% of the housing requirement. For clarity, authorities that are not required to continually demonstrate a 5 year housing land supply should disregard this requirement*

For East Cambridgeshire, the above can be interpreted as follows:

In respect of paragraph 76, East Cambridgeshire meets criteria (a) because its Local Plan was updated and adopted in October 2023, and therefore '*less than five years old*'. However, that Local Plan does not meet criteria (b), because that update of the Local Plan did not identify an updated list of '*deliverable sites at the time that its examination concluded*'. Consequently, paragraph 76 does not apply to East Cambridgeshire. As such, paragraph 77 must.

Para 77 starts by referring to either four or five years' worth of supply needing to be demonstrated, with it being four years if para 226 applies. Para 226 relates to emerging new Local Plans which have reached certain stages of its preparation. This does not presently apply to East Cambridgeshire. Consequently, **East Cambridgeshire currently defaults to needing to demonstrate five years' worth of supply.**

Para 77 then states that supply '*should be demonstrated against either the housing requirement set out in adopted strategic policies, or against the local housing need where the strategic policies are more than five years old*'. In East Cambridgeshire's case, our housing requirement was set in October 2023, and therefore less than five years ago. That housing requirement in our Local Plan therefore should be used.

Para 77 then moves on to whether or not there has been a ‘significant under delivery of housing over the previous three years’, using the Housing Delivery Test to establish that fact. As demonstrated later in this 5YLS Report, there has not been a ‘significant under delivery of housing over the previous three years’, and therefore that element of paragraph 77 does not apply.

In addition to the NPPF are the provisions set out in the NPPG. Where necessary, these are referred to in this 5YHLS Report, but no such provisions ‘override’ the provisions in the NPPF, so the above is the primary basis for this 5YHLS Report.

2. Housing Requirement

The East Cambridgeshire Local Plan 2015 (as amended 2023), Policy Growth 1, establishes the housing requirement as follows:

“In the period 2022 to 2031, the District Council will:

- *Make provision for the delivery of 5,400 dwellings in East Cambridgeshire.”*

This figure of 5,400 dwellings (which equates to 600 dwellings per annum(dpa)) is used in this 5YHLS Report.

For the avoidance of doubt, there is no need for this 5YHLS Report to establish the ‘Local Housing Need’ for East Cambridgeshire because the housing requirement in the Local Plan is up to date (less than five years old).

3. Five Year Basic Requirement

The basic five-year housing requirement, for the period 2024-2029, is therefore:

$$5 \times 600 = 3,000 \text{ dwellings}$$

4. Is an additional Buffer required?

Previous national policy had a number of potential ‘buffers’ that might need to be added to the five year basic requirement figure in order to establish the total 5YHLS requirement.

However, the December 2023 version of the NPPF removed most of the instances where a buffer might need to be added, and instead only one scenario exists where a buffer might need to be added.

That scenario is based on whether or not the local planning authority sufficiently ‘passes’ the Housing Delivery Test (HDT) and specifically where the HDT indicates that delivery was below 85% of the housing requirement in the past three years. If it was below 85%, then a 20% buffer will need to be added.

The latest HDT figures were released by Government on 19 December 2023, and provided the 2022 HDT measurement.

For East Cambridgeshire, the HDT result was 99%, therefore comfortably passing the 85% threshold. **Consequently, no buffer is required to be added. Therefore, the five-year housing requirement remains at 3,000 dwellings for the period 2024-29.**

It is uncertain when Government will publish the 2023 or 2024 HDT measurement. However, it is estimated that East Cambridgeshire will continue to comfortably exceed the 85% threshold because delivery has exceeded our target in the past few years. If, on publication of the HDT results, that is not the case, then an update of the 5YLS Report will be published.

5. Has there been under or over-supply of housing?

Another adjustment to the basic five-year housing requirement might be necessary depending on dwelling delivery in recent years, to the start of the housing requirement period.

Where there has been a shortfall in delivery, the NPPG (Paragraph: 031 Reference ID: 68-031-20190722) says:

‘The level of deficit or shortfall will need to be calculated from the base date of the adopted plan and should be added to the plan requirements for the next 5 year period (the Sedgefield approach)’

Where there has been an oversupply, the NPPG (Paragraph: 032 Reference ID: 68-032-20190722) says:

‘Where areas deliver more completions than required, the additional supply can be used to offset any shortfalls against requirements from previous years.’

Please note that both the above paragraphs are dated 22 July 2019 and remain, at the time of writing, up to date national planning guidance. However, in December 2023, a Written Ministerial Statement (HCWS161) stated:

‘When it comes to calculating a five-year housing land supply, the Government is clear that we want to bring the position on past oversupply in line with that of past undersupply. We have amended the NPPF to formalise existing planning practice guidance on this topic and will in due course update this guidance to bring the over-supply position in line with under-supply.’

That update has not yet been published at the time of writing this Report and with a new change of Government and proposed amendments to NPPF, there is a reasonable prospect it will never be implemented. If para 032 referred above is amended, and has implications for East Cambridgeshire’s 5YHLS depending on what the revised guidance states, then we shall update this 5YLS Report.

For East Cambridgeshire, the supply in the years from the plan base date has been as follows:

- 2022/23 – 820 dwellings completions (net). Source: *East Cambridgeshire Authority’s Monitoring Report (AMR) 2022-23, published December 2023*
- 2023/24 – 616 dwellings completions (net). Source: *East Cambridgeshire’s Housing Flows Reconciliation return August 2024, and to be shortly confirmed in the Authority’s Monitoring Report (AMR) 2023-24, to be published before end of 2024*

This means there has been an over-supply of 236 dwellings.

However, using the NPPG as quoted above, such an over-supply cannot presently be deducted from the five year forward looking housing requirement. However, it also confirms there has been no undersupply that requires to be added to the forward supply calculations.

Consequently, therefore, the five-year housing requirement remains at 3,000 dwellings for the period 2023-28.

6. Five Year Supply

This section sets out how the supply of sites to meet the five year requirement has been identified. For a site to be considered deliverable Annex 2 of the NPPF (December 2023) provides the following definition of *deliverable*:

Deliverable: *To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*

- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
- b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.*

The definition of deliverable in the NPPF does not expressly refer to other sites which do not fall into category (a) or (b). Any such sites therefore would be considered under the opening sentence of the definition.

NPPG provides further guidance, which is extensive and not repeated in full here, but can be found at <https://www.gov.uk/guidance/housing-supply-and-delivery>.

In terms of 'deliverability', the following is most relevant¹:

'As well as sites which are considered to be deliverable in principle, [the NPPF] definition also sets out the sites which would require further evidence to be considered deliverable, namely those which:

- *have outline planning permission for major development;*
- *are allocated in a development plan;*
- *have a grant of permission in principle; or*
- *are identified on a brownfield register.*

Such evidence, to demonstrate deliverability, may include:

- *current planning status – for example, on larger scale sites with outline or hybrid permission how much progress has been made towards approving reserved matters, or whether these link to a planning performance agreement that sets out the timescale for approval of reserved matters applications and discharge of conditions;*
- *firm progress being made towards the submission of an application – for example, a written agreement between the local planning authority and the site developer(s) which confirms the developers' delivery intentions and anticipated start and build-out rates;*
- *firm progress with site assessment work; or*
- *clear relevant information about site viability, ownership constraints or infrastructure provision, such as successful participation in bids for large-scale infrastructure funding or other similar projects.'*

In helping to determine what sites can be counted as 'deliverable', it is also helpful to review SoS and Inspectorate decisions.

One such case is Recovered appeal: 97 (and land adjacent to) Barbrook Lane, Tiptree, Colchester (ref: 3223010 - 7 April 2020) available here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/878446/combined_DL_IR_R_to_C_97_and_land_adjacent_to_Barbrook_Lane_Tiptree_Colchester_CO5_0JH.pdf

In this recovered appeal, the SoS agrees with the Inspector deliberations and conclusions on the housing land supply. In this case, the Inspector stated as follows:

"168. It is a matter of dispute between the two parties as to whether the definition of "Deliverable" in the glossary of the Framework comprises an essentially closed list and both parties have drawn my attention to the St Modwen judgement and to a number of appeal decisions with differing conclusions on this matter. In my mind, the words "in particular" denote particular examples. There is nothing in the Framework that confirms that the list is closed and therefore I do not read it to be so. The St Modwen judgement is therefore still relevant. It is clear from the glossary definition that for sites to be considered deliverable, they should be available now, offer a suitable location for development now and be achievable with a realistic prospect that housing will be delivered on the site within five years.

¹ Paragraph: 007 Reference ID: 68-007-20190722

169. In respect of Category B type sites, the glossary says that such sites should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years. The Planning Practice Guidance sets out what further evidence “may include”. Therefore, the list of evidence in the PPG is not exhaustive either.

170. I am of the general view that if a site is unallocated in an adopted development plan, but included in the latest housing trajectory, then it should not automatically be disregarded if permission is granted after the “base date” as the risk of “skewing” the housing figures would be minimal. This is especially so in Colchester where permissions do not tend to lapse.”

The Inspector then goes on to examine a number of sites where the parties disagreed on delivery. The deliberations in this case help to establish what kinds of sites are ‘deliverable’ and which are not. It also confirms elsewhere in the decision the principle that a windfall allowance can form part of the supply (578 homes in this particular case, which is over 10% of both the required supply and the identified supply).

Local to this district, and in September 2020, Inspector Searson (APP/V0510/W/20/3245551) also deliberated on these matters, and the Council has, in preparing this Report, been informed by her deliberations. Further appeal decisions in the district have also confirmed the approach to be taken (including, again, that a windfall allowance is appropriate), and these have also been taken into account in preparing this Report.

The Council is confident its approach in this Report is entirely consistent with this SoS recovered appeal decisions and several East Cambridgeshire based recent (i.e. past 4 years) appeal decisions.

Deliverable sites in East Cambridgeshire

Appendix A provides a list of all available and deliverable sites between 1 April 2024 and 31 March 2043. For clarity, the trajectory is organised by planning status of sites (for example, non-major development, sites with detailed planning permission, sites with outline permission, etc.), reflecting the NPPF definition.

For committed sites, Appendix A identifies the planning application reference and date permission was granted. It identifies the total number of dwellings permitted on site and total dwellings completed on site at 31 March 2024. This leaves the outstanding dwelling figure (i.e. ‘net commitment’) as at 1 April 2024. For Local Plan allocations, Appendix A identifies the Local Plan allocation reference and the indicative dwelling figure as set out in the corresponding Local Plan policy.

The Appendix includes a trajectory showing the estimated delivery rate for all committed housing sites for each year between 2024/25 and 2042/43. The five-year period is highlighted to show total dwellings estimated to be delivered during the five-year period 2024/25 to 2028/29 (inclusive). Appendix A is organised as follows:

- Appendix A (i) Trajectory of sites which are not "major development"
- Appendix A (ii) Trajectory of sites with detailed planning permission
- Appendix A (iii) Trajectory of sites with outline planning permission
- Appendix A (iv) Trajectory of sites allocated in adopted Development Plan
- Appendix A (v) Trajectory of sites without consent, deliverable within five years
- Appendix A (vi) Trajectory of sites **not** deliverable within five years (*of any planning status*)

Windfall allowance

Windfall sites are those not specifically identified in the development plan. The five-year supply calculation includes an allowance for windfall development. Paragraph 72 of the NPPF states that:

‘Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should

be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends’.

Appendix B provides compelling evidence of historical windfall rates, and demonstrates that a windfall allowance of 50 per year is a reasonable if somewhat pessimistic rate compared with historic trends. No allowance has been made for the first two years as it is expected that any unallocated sites delivered within that time would likely already be under construction or have planning permission. This gives a total of 150 dwellings in the five-year period, a figure which is highly likely to be exceeded.

The Council has not amended the approach to windfall allowance since it was tested by Inspector Searson (APP/V0510/W/20/3245551) in September 2020. In that decision, the Inspector concluded that the Council’s approach “*to be a robust approach which meets the compelling evidence test.*” Subsequent appeal decisions have reached the same conclusion.

Older people’s accommodation

National planning practice guidance explains the contribution which older peoples’ accommodation in use class C2 makes toward the housing requirement:

‘Local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, against their housing requirement. For residential institutions, to establish the amount of accommodation released in the housing market, authorities should base calculations on the average number of adults living in households, using the published census data.’²

Appendix C sets out how the Council has applied the method for calculating accommodation released by such residential institutions, and details committed sites considered deliverable within the five-year period. This projected supply has been included in the five-year supply calculation.

Developer survey

In some years the Council has undertaken a developer survey. It last did so in Spring 2022, with the Council writing to agents / developers involved in the delivery of large sites, inviting them to review the information held by the Council about their site, confirm its accuracy and make amendments where necessary. Response rates, even after repeated requests, are frequently very low indeed, with developers apparently unwilling to provide trajectories for their sites. Where we got meaningful responses, these are included in this report. However, the benefits of undertaking such surveys each year (and the very poor response rate we receive, despite repeated requests) does not justify the cost or delay to publishing updated 5YLS reports. If a developer or agent on reading the trajectories in this report wish to correct or otherwise update such figures, then we would gratefully receive such evidence and ensure future updates of this Report takes into account such evidence.

Calculating supply

Table 3 provides a summary of the Council’s five-year land supply of deliverable sites. The Five-Year period runs between 1 April 2024 and 31 March 2029. Appendix A provides details of all housing sites and potential housing numbers which could be delivered each year. Appendix B explains how supply from windfall has been estimated. Appendix C details projected supply of older people’s accommodation in use class C2.

It should be noted that this table is produced on the basis of likely deliverable housing as at 1 April 2024. Thus, all completions after 1 April 2024, and the vast majority of new permissions and any lapsed permissions since 1 April 2024, will not have been taken into account in this report – such matters will be picked up in a future update of this 5YLS Report.

² Paragraph: 043 Reference ID: 3-043-20180913

Table 3: Dwelling supply in five year period and beyond

Site Status at 01 April 2023	Year 1 24/25	Year 2 25/26	Year 3 26/27	Year 4 27/28	Year 5 28/29	Total Five Year	Future Supply Total Year Six Onwards	Total (all) (including post 2031)
Minor (non-major) development - schemes of less than 10 dwellings with planning permission. <i>Apx A(i)</i>	259	381	7	0	0	647	0	647
Dwellings (major) with detailed planning permission (e.g. Full, Reserved Matters). <i>Apx A(ii)</i>	373	735	481	301	243	2,133	126	2,259
Dwellings (major) with outline permission. <i>Apx A(iii)</i>	0	0	267	245	229	741	894	1,635
Dwellings allocated in development plan, without consent at base. <i>Apx A(iv)</i>	0	0	0	50	110	160	580	740
Dwellings on unallocated sites & without consent at base <i>Apx A(v)</i>	0	1	0	0	0	1	0	1
Sites with no clear evidence of deliverability in 5yr period. <i>Apx A(vi)</i>	0	0	0	0	0	0	2,584	2,584
Windfall allowance (to 2031 only). <i>Apx B</i>	0	0	50	50	50	150	100	250
Older people's accommodation (C2). <i>Apx C</i>	0	0	35	0	91	126	0	126
Total	632	1,117	840	646	723	3,958	4,284	8,242

The Council has identified land that is estimated, based on evidence set out in appendices A-C, to be capable of delivering **3,958 dwellings within the five-year period**, with such a supply consistent with national policy and case law. This supply is considerably higher than the five-year requirement of 3,000 dwellings. This leaves a surplus of 958 dwellings. The above table also demonstrates there is a very

healthy identifiable supply of pipeline plots, of 4,284 units beyond the five year period ending 31 March 2029. We also have a further 236 units of oversupply from 2022-24 period, which can be used in the future should any particular year have an undersupply against target.

Dwelling supply (years)

Expressed in years, this dwelling supply is equivalent to **6.60 years supply of housing land**, as shown in Table 4.

Table 4: Five Year Supply

	Dwellings (units)	Calculation / Source
Estimate of Supply, over the Five-Year period 2023 to 2028	3,958	See Table 3
Total Five-Year Land Supply in years	6.60	3,958 ÷ 600

Conclusion

It is concluded that the Council can demonstrate a five-year supply of housing land. Through this Five-Year Land Supply Report October 2024, the Council demonstrates:

- **6.60 years supply over the five-year period**
- **A further 7.14 years of pipeline supply, anticipated to come forward from year 6 onwards.**
- **A grand total of 13.74 years' worth of identifiable supply, for the full period 2024-2043**

Part 2: 5YHLS Report based on Consultation Draft July 2024 NPPF

This part of the report is presented for information only. It undertakes the 5YHLS calculations based on the consultation draft NPPF, dated July 2024. A new NPPF is anticipated in late 2024 or early 2025, and it is anticipated it will contain revisions to the policy and method for calculating land supply. An update of this 5YLS Report may be necessary at that point. However, should the consultation draft NPPF become the new policy in an updated NPPF, then this Part 2 of this report sets out the consequences of such updates.

The consultation proposals can be found here:

<https://www.gov.uk/government/consultations/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system/proposed-reforms-to-the-national-planning-policy-framework-and-other-changes-to-the-planning-system#chapter-3--planning-for-the-homes-we-need>

Below, we first set out a 'proposed change' (including paragraph number of that change) and immediately to the right of each such change is the implication for this East Cambridgeshire 5YLS Report, compared with what is set out in Part 1.

Chapter	Para	Proposed Change to NPPF	Effect on this East Cambridgeshire Report
3	20	<i>...we propose reversing these changes and re-establishing the requirement for all local planning authorities, regardless of local plan status, to continually demonstrate 5 years of specific, deliverable sites for housing.</i>	Nil. We already are required to continually demonstrate a 5 year supply
3	20	<i>We are also proposing to remove the wording on past oversupply in paragraph 77, which was introduced to set out that previous over-supply could be set against upcoming supply.</i>	Nil. We already do not offset past oversupply.
3	22-23	<i>The Framework currently requires local planning authorities to include a buffer of 20% on top of their 5-year housing land supply where there has been significant under delivery of housing over the previous 3 years, as measured through the Housing Delivery Test. Prior to December 2023, authorities were also required to include a buffer of 5% on top of their 5-year housing land supply, in order to account for fluctuations, or 10% where the authority wanted to confirm its 5-year housing land supply for a year through an Annual Position Statement or recently adopted plan.</i> <i>We propose reversing this change and reintroducing the 5% buffer.</i>	If implemented, this change will add 5% to our base supply requirement. Our current base supply requirement is 3,000 dwellings over the 5 year period. With the change, this will increase to 3,150 dwellings.

3	23	<i>The 20% buffer would also remain. As it is now, this will only be applied where an authority significantly under delivers against their housing requirement as measured through the HDT or local housing need where relevant.</i>	Nil. We presently do not qualify for the 20% buffer, and the consultation NPPF would not amend that situation.
4	-	<i>Alongside reversing the previous Government's changes to the NPPF, including to restore the standard method for assessing housing needs as mandatory, we are proposing a new standard method.</i>	Nil. Whilst the new method will, as proposed, amend East Cambridgeshire's 'Local Housing Need' figure, this is not relevant to this 5YLS report because we have an adopted housing requirement figure in our Local Plan which is less than 5 years old.

Revised calculation

The only short-term effect of the NPPF proposed changes, if implemented as consulted upon, would therefore be to increase the East Cambridgeshire base housing figure from 3,000 to 3,150 for the full five year period (or from 600 to 630 per annum).

This results in a slight adjustment to the resultant five-year land supply calculations compared with those found in Table 4 in the conclusion of Part 1 of this Report, as follows:

Table 5: Five Year Supply (if July 2024 NPPF proposed changes are implemented)

	Dwellings (units)	Calculation / Source
Estimate of Supply, over the Five-Year period 2023 to 2028	3,958	See Table 3
Total Five-Year Land Supply in years	6.28	3,958 ÷ 630

Conclusion (if NPPF proposed changes July 2024 are implemented)

(see Part 1 conclusions for the outcome using the current NPPF, December 2023)

It is concluded that the Council will still be able to demonstrate a five-year supply of housing land. The Council will be able to demonstrate:

- 6.28 years supply over the five-year period
- A further 6.80 years of pipeline supply, anticipated to come forward from year 6 onwards.
- A grand total of 13.08 years' worth of identifiable supply, for the full period 2024-2043

230059	18/00059/FUM	SOH4	Land Rear Of 55 To 69 Fordham Road Soham Cambridgeshire	Soham CP	Full application	26/02/2020	Erection of 78 residential dwellings together with associated new public open space.	78	0	0	0	75	0	3	3	3	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	3	Development of site has commenced, with completions in 21/22. Completions continuing into 22/23 and 23/24.	
230060	17/00893/FUM	SOH5	Land South Of Blackberry Lane Soham Cambridgeshire	Soham CP	Full application	13/06/2018	22/02/2019 Hybrid Planning Application - Full Application for the erection of 149 dwellings and associated access, parking and open space; Outline Application for 8 Self-Build Dwellings.	157	0	0	0	59	0	98	98	50	40	8	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	98	Site allowed on appeal (with slight adjustment during appeal from 160 homes to 157 homes, 8 of which self-build with outline permission). Completions started late 21/22, wider site under construction. Site actively marketed, with homes for sale https://www.orbithomes.org.uk/felix-park . Completion of site should conclude within 5 year period. 8 self build plots have outline permission and therefore assume will complete in year 3.	
230062	19/00771/FUM		Land Parcel East Of 2 The Shade Soham Cambridgeshire	Soham CP	Full application	26/03/2021	Development of the land to provide a new 70-bedroom care home (Use Class C2), a children's nursery (Use Class D1), 18 dwellings (Use Class C3) and associated access, car and cycle parking, structural landscaping and amenity space provision	18	0	0	0	0	0	18	18	0	18	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	18	The site has detailed permission and is considered deliverable within the five year period, as per the NPPF definition. Site access road complete. In addition, site includes 70-bed care home which has recently completed.	
230151	23/00146/RMM		Broad Piece Soham Cambridgeshire	Soham CP	Reserved Matters application	20/11/2023	Residential development for 166 dwellings and identification of 9 self build plots, open space and associated infrastructure for previously approved 19/00717/OUM for proposed erection of up to 175 dwellings and associated infrastructure with access from Broad Piece	175	0	0	0	0	0	175	175	0	0	40	50	50	35	0	0	0	0	0	0	0	0	0	0	0	0	175	This is the reserved matters application for the outline permission granted on appeal, 11 Feb 2022. In the proof of evidence of the appellant (Persimmon Homes, 14 Dec 2021) at this Inquiry, it was stated "if this appeal were to be allowed then delivery on site would take place within the current five year period" (para 4.1.102). More substantially, the same proof stated at 6.1.41 "The appeal proposals will assist with delivery within the five-year period, with first completions anticipated in 2023. In that respect the Appellant is proposing to reduce the time necessary for submission of the reserved matters application from three years to two years, to demonstrates its commitment to delivery from the site. This is not a proposal that should planning permission be issued, would be 'mothballed or land banked'. It is a well thought out planning application by an active house builder in the area who controls the land and would proceed to construct the development and make a positive contribution to the need to boost the supply of housing." 'First turf' cut Sept 2024 (see Persimmon press release)

100029	11/01077/ESO	ELY1	Land At High Flyer Farm North Of Kings Avenue Ely Cambridgeshire	Ely CP	Outline application	18/06/2015		Residential development, a local centre comprising retail foodstore (A1), uses within Use Classes A1/2/3/4/5, D1 and business units (B1), primary school, pre-school nursery, playing fields, place of worship and/or community hall, together with open space, allotments, landscaping, highways, infrastructure and associated works.	800	0	0	200	0	0	600	600	0	0	50	50	50	50	50	50	50	50	50	50	50	50	0	0	0	0	0	600	Site with outline planning permission, partly superseded by reserved matters application for first phase 17/01722/RMM which is currently being built out at a rate of approximately 50 dwellings per annum (13 of 199 units remaining 1.4.24). Assume this remaining phase(s) will deliver new dwellings following completion of the first phase (17/01722/RMM), but with a single year of nil delivery in yr2 i.e. restarted delivery from year 3 at a rate of 50dpa. A response to the Development Sites Survey 2022 was received which confirmed the estimated delivery rate of 50dpa.	

Site Ref	Application Ref	LP15 Ref	Site address	Parish	Application Type	Appeal decsn Decision date	Proposal	Site capacity	Past losses	Projected losses	No. supersede	Complete	Under construction	Not started	Net Commitment	Years 1 - 5					2029/30	2030/31	2031/32	2032/33	2033/34	2034/35	2035/36	2036/37	2037/38	2038/39	2039/40	2040/41	2041/42	2042/43	Total	Comments		
																2024/25	2025/26	2026/27	2027/28	2028/29																		
100030	13/00785/OUM	ELY1	North Ely Urban Extension (western parcel)	Ely CP	Outline application	20/06/2016	Residential led development of up to 1,200 homes with associated employment and community uses (including care home or extra care home). Supporting infrastructure, and open space/landscaping on land to the west of Lynn Road in Ely	1200	0	0	715	0	0	485	485	0	0	0	0	50	70	75	75	75	75	65	0	0	0	0	0	0	0	0	0	0	485	Site with outline planning permission at base date and partly superseded by phases 16/01794/RMM (199 homes), 20/00360/RMM (258 homes) and 21/00470/RMM (258 homes). Therefore, 485 remain of original outline permission of 1,200. It is assumed that completions from remaining site are deliverable from year 5 in this instance (rather than typically year 3 for an outline), in acceptance of other phases of the original 1200 still being built out which could mean this remaining phase might not start by year 3. NB. App ref is 13/00785/ESO
110025	16/01662/OUM	FRD3	Land Adjacent 67 Mildenhall Road Fordham Cambridgeshire	Fordham CP	Outline application	19/09/2018	Residential Development for 74 Houses. 5 Plots for self build, parking, vehicular accesses and public open space.	79	0	0	0	0	0	79	79	0	0	0	35	35	9	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	79	The site has outline planning permission and is allocated in Fordham Neighbourhood Plan as site allocation 'FH6'. A reserved matters application (21/01095/RMM) is currently pending determination. The site is therefore considered deliverable within the five year period, possibly from yr2 Or yr3 with an early RMM permission, but assumed as being yr4 onwards on a precautionary basis. Submission of RMM shows clear evidence of intent to deliver, therefore site is deliverable.
110049	20/01332/OUM		Land West Of 24 Mildenhall Road Fordham Cambridgeshire	Fordham CP	Outline application	12/05/2023	Outline application for 12 new dwellings (access as the only matter for consideration)	12	0	0	0	0	0	12	12	0	0	12	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	0	12

Appendix A (iv) Trajectory of sites allocated in adopted Development Plan

Site Ref	Application Ref	LP15 Ref	Site address	Parish	Application Type	Appeal decsn Decision date	Proposal	Site capacity	Past losses	Projected losses	No. supersede	Complete	Under construction	Not started	Net Commitment	Years 1 - 5					2029/30	2030/31	2031/32	2032/33	2033/34	2034/35	2035/36	2036/37	2037/38	2038/39	2039/40	2040/41	2041/42	2042/43	Total	Comments
																2024/25	2025/26	2026/27	2027/28	2028/29																
180029	LIT1	LIT1	West of Woodfen Road	Littleport CP	Mixed use allocation		MIXED USE ALLOCATION	250	0	0	0	0	0	250	250	0	0	0	30	50	50	50	50	20	0	0	0	0	0	0	0	0	0	250	The site is allocated in the Local Plan 2015. Hybrid application (ref: 20/01238/FUM) for 209 dwellings (full permission) and 241 dwellings (outline), total 450 dwellings, was validated in October 2020. During consideration, subsequently reduced to 180 full and 217 outline, therefore a total of 397 units. Pending consideration as of end of March 2024 but approved post monitoring year in June 2024. It is therefore assumed that the site, particularly the 'full permission' element being sought, is capable of delivering some completions within the five year period. 250 units listed on the trajectory as at 1 April 2024 reflects LP allocation assumption, but will be increased to match consent of 397 in next five year land supply report. Barratt Homes controls the site, so can respond quickly from consent to delivery. On a cautionary basis, assume completions start from second half of 2027/28 (yr 4).	
230056	SOH1	SOH1	Land off Brook Street	Soham CP	Housing allocation		HOUSING ALLOCATION	400	0	0	0	0	0	400	400	0	0	0	20	40	45	45	45	45	45	45	25	0	0	0	0	0	0	400	Allocation site in LP2015 for (indicatively) 400 units. Hybrid application (21/01048/HYBM) for 1 demolition/1 replacement dwelling (full), plus 80 dwellings (outline) on southern parcel only of wider SOH1 allocation. Approved October 2024 (post monitoring year). No proposals at present for remaining part of SOH1. Site is therefore both allocated and with partial permission, demonstrating clear developer intent to deliver, therefore clear evidence of site, in part, being deliverable. On a cautionary basis, assume completions from 2027/28.	
230057	SOH2	SOH2	Land off Station Road	Soham CP	Mixed use allocation		MIXED USE ALLOCATION	90	0	0	0	0	0	90	90	0	0	0	0	20	20	20	20	10	0	0	0	0	0	0	0	0	90	The site is allocated in the Local Plan 2015. The estimated site capacity is based on the Local Plan allocation. However, an application for 108 dwellings and retail units (20/01174/FUM) was received and validated in September 2020, later adjusted to 91 dwellings. Refused June 2024. A previous permission for 31 dwellings on part of the site (16/01804/FUM) appears to have lapsed. Therefore, there is confidence the site as a whole is possibly partly deliverable in the five year period. Development of the site is also closely related to the development of Soham rail station, which opened recently.		

Appendix A (vi) Trajectory of sites not deliverable within five years

Appendix B – Windfall Justification

The housing supply can also include an assumption for future windfall development. Paragraph 72 of the NPPF states that:

‘Where an allowance is to be made for windfall sites as part of anticipated supply, there should be compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends’

The definition of windfalls in the Glossary to the NPPF states they are sites which have not been specifically identified in the development plan. Therefore, a windfall is any site that produces dwellings, but has not been identified in the development plan process.

The adopted Local Plan 2015 (as amended 2023) typically allocates sites with capacity for 10 dwellings or more¹. The Local Plan contains policies which enable small scale residential developments to take place over the plan period. Therefore, there is justification for including a windfall allowance for small sites of fewer than 10 dwellings.

Local Plan policies for small-scale development

The Local Plan 2015 applies ‘Development Envelopes’ around the built areas of existing settlements. In principle, development is generally acceptable within the Development Envelope (see policy *Growth 2: Locational Strategy*). Over the plan period there are likely to be numerous opportunities for windfall development within Development Envelopes.

In addition, the adopted Local Plan 2015 enables certain forms of development to take place in the countryside (i.e. outside of Development Envelopes), for example Affordable Housing exception sites; dwellings for rural workers; the replacement of existing dwellings in the countryside; and, the re-use and conversion of non-residential buildings for residential use.

Generally speaking, where Neighbourhood Plans have been made in the district, they follow the same principles as above.

Historic windfall delivery

Developments of fewer than 10 units almost without exception occur on sites not allocated in the adopted Local Plan. As such small sites can generally be considered to be “windfall development”. To provide an estimate of the level of windfall development which might reasonably be expected to be delivered in the future, this section analyses historic housing completions by size of site.

Cambridgeshire County Council supplied housing completions data for East Cambridgeshire district prior to 31 March 2017, with housing completions data from 01 April 2017 onward provided by East Cambridgeshire District Council.

This data has been analysed to calculate annual historic windfall delivery spanning 22 reporting years, and includes 9,781 net housing completions in total. Each site is assigned to one of the following *development classes*:

¹ The Local Plan 2015 includes a small number of site allocations with a capacity of less than 10 dwellings, but the total capacity of such sites is negligible relative to the overall dwelling supply.

- **Estate 9+ Dwellings** – Any development site providing 9 or more residential units.
- **Group 3-8 Dwellings** – Small-scale residential development providing 3 to 8 residential units;
- **Infill 1-2 Dwellings** - Scale residential development providing 1 to 2 residential units;
- **Residential Change of Use** – Change of use of a non-residential building to one or more dwellings. Generally small-scale, however one site providing 16 dwellings (and therefore large scale) was completed in the 2014/15 reporting year and for the purposes of this note has been reassigned to the Estate 9+ Dwellings class.
- **Replacement Building** – Replacement of existing dwelling(s) or ancillary building with one or more dwellings. All records in sample are small-scale.
- **Residential Conversion** – Conversion of dwelling(s) (and in some instances non-residential buildings) to create one or more new dwellings. All records in the sample are small scale.
- **Demolition of Dwelling** – Developments involving the demolition of one or more dwellings. Generally, demolitions of dwellings occur on small-scale dwellings, for example through the development of replacement dwellings, or to open up existing garden land for development. Whilst there likely have been exceptions, for the purposes of this assessment it has been assumed that all demolitions/losses occur on small sites.

Using these Development Class categories, it is possible to estimate total housing completions for 'large-scale' and 'small-scale' development sites.

The "Estate 9+ dwellings" Development Class can generally be considered a proxy for 'large-scale development'. Therefore, all housing completions on such sites are considered as large scale development and are not considered "windfall development". It should be noted that the Local Plan 2015 considers sites of 10 or more units to be large-scale development, however data is not available at that threshold.

All other records within the development classes: "Group 3-8 Dwellings"; "Infill 1-2 Dwellings"; "Residential Change of Use"; "Replacement Building"; and, "Residential Conversion"; are considered to be small-scale and therefore *windfall development*.

Table B.1 calculates the number of housing completions by reporting year and by site capacity - either large scale or small scale. Losses through demolition are included for the purposes of calculating net total housing completions.

Table B.1 indicates that since 2002, on average 123 dwellings were completed on small-scale development sites each year.

Since adoption of the Local Plan in 2015, windfall development has also averaged 123 gross dwellings per annum.

Table B.1: Annual housing completions by site capacity

Reporting Year	Large scale development (9+ units)	Small scale development i.e. "windfall" (fewer than 9 units)	Demolition/loss of Dwelling	Total Net Completions (excluding C2)
2023/24	497	124	-5	616

Average (rounded)	327	123	-5	445

*Dwellings only. Figures do not include equivalent dwelling supply from 'C2 older people's accommodation'

Analysis and conclusions

The historic data illustrates that in each year, a significant portion of total new homes built are constructed on small-scale windfall sites. On average 123 new dwellings are completed each year on small-scale windfall sites. That 20+ year trend has been replicated in the shorter-term trend since adoption of the original Local Plan in 2015.

The Local Plan includes a number of policies which enable small-scale windfall developments, both within development envelopes and in certain circumstances, in the countryside. It is therefore likely that small-scale windfall development will continue to generate a substantial number of new dwellings over the plan period.

Due to the flexibility offered by such policies, it is possible that the number of small-scale windfall developments could increase. However, land is inevitably finite – as more sites are developed, fewer remain available for development.

It is assumed that most windfall development which will be completed in the next two years would already have planning permission and would likely be broadly accounted for in the commitment data shown elsewhere in this Five Year Land Supply report. Therefore, for the purposes of the housing trajectory and five year land supply calculation, **it is assumed that ‘new’ small-scale windfall development will occur from 2026/27 (yr 3) at a rate of 50 units per annum.**

As illustrated by past trends, this windfall allowance is highly likely to be exceeded and is considered to be a conservative estimate (50 dwellings equate to just 40% of gross average small-scale windfall completions). It is therefore justified to allow for this amount in the plan period and for feeding into calculations of the five-year land supply.

Community Land Trust developments

East Cambridgeshire District Council is highly supportive of community-led development, which is delivered primarily through a Community Land Trust (CLT) model. The Council takes a proactive role, offering a programme of support to CLTs, and as such expects a substantial proportion of new development to be delivered via CLTs.

Reflecting this important local priority, the adopted Local Plan 2015 supports community-led development through policy *Growth 6*. The Local Plan’s locational strategy, as set out in policy *GROWTH 2*, enables community-led development schemes to be developed in locations which would otherwise not be acceptable for the development of market housing schemes (such as locations outside of *Development Envelopes*), thereby increasing the supply of land available for community-led development. Due to the level of support offered by the Local Plan it is believed that further windfall sites will be delivered in the form of community-led development, and the CLT model of delivery will gain impetus over the plan period.

Whilst the the delivery of community-led development is likely over the plan period, the Council has applied a cautious approach and not included community-led development units within the five-year calculation.

Inspector appeal decisions

Despite challenges from (appeal) applicants, recent Inspectors and their appeal decisions (past 4 years or so, including inquiry-based appeals) have consistently endorsed the approach and calculations in this appendix, and have considered the evidence to be ‘robust’ and consistent with national policy.

Appendix C – Dwelling Supply Older People’s Accommodation

National Planning Practice Guidance sets out the method for counting residential institutions which provide accommodation for older people, against the housing requirement¹.

To establish the amount of accommodation released in the housing market, the NPPG states that calculations should be based on the average number of adults living in households, using the published census data.

At the time of the census 2011, there were 64,696 adults in 34,613 households within East Cambridgeshire. This provides a ratio of 1.87 (rounded to 2dp).

Using the published census data East Cambridgeshire, the following table provides a worked example to show the amount of accommodation released, expressed as number of dwellings, by a hypothetical 50-bed care home.

Example: 50-bed care home scenario

No. of beds / ratio = accommodation released (dwellings)

Beds	50
Ratio	1.87
Accommodation released (to nearest whole dwellings)	27

Dwelling supply

Table C.i provides details of sites which the Council expects to deliver older people’s accommodation in use class C2 (e.g. care home, nursing home, etc.), within the five year period.

Conclusions

The supply from dwellings within the five-year period should be increased by **126 dwellings** (Table C.i), to reflect provision of older people’s accommodation (in C2 use class).

Table C.i – Projected Delivery of Older People’s Accommodation (C2) in Five Year Period

ref	Date permission	Site address	Proposal	Application type	Supply: beds	Supply: as dwellings	2024/25	2025/26	2026/27	2027/28	2028/29	Total	Justification
22/01510/FUM	11/04/2023	Land South West Of 41 Soham Road Fordham Cambridgeshire	Construction of a 66 bedroom Care Home (Use Class C2) for the elderly with associated access, parking and landscaping	full application	66	35	0	0	35	0	0	35	Proposal has full permission, closely linked to a wider housing development nearing completion. It is presumed a 75 bed care home (with outline pp) for this site will not be taken forward, and instead replaced by this more recent full permission.
18/00752/ESO	15/04/2020	Land Southwest Of 98 To 138 Station Road Kennett Suffolk	Sustainable 'Garden Village' extension to Kennett - residential-led development with associated employment and community uses (including care home and/or sheltered housing) and a new primary school with a pre-school (nursery) facilities, supporting infrastructure and open space/landscaping.	Outline application	TBC	TBC	0	0	0	0	0	0	Site includes development of a care home. Capacity of the care home remains to be confirmed through the planning process. The phasing plan indicates that development of the care home would not form a part of the first phase of development, and therefore is not expected to be delivered within the five year period.
23/00205/OUM	13/02/2024	Land to the rear of 163 to 187 High Street and east of Rowan Close, Bottisham	Development of a retirement care village in class C2 comprising housing with care, communal health, wellbeing and leisure facilities; and C3 affordable dwellings (comprising up to 30 percent on-site provision), public open space, play provision, landscaping, car parking, access and associated development	Outline application	170	91	0	0	0	0	91	91	Permission granted on appeal. However details awaited, so no C2 supply assumed in early part of five year period but should be deliverable within the five year period.. The full 91 units are assumed to be delivered in a single year, as it is unlikely a C2 type development will be 'half opened' with half the bedrooms available.
				Total supply	236	126	0	0	35	0	91	126
