

# EAST CAMBRIDGESHIRE DISTRICT COUNCIL

THE GRANGE, NUTHOLT LANE,  
ELY, CAMBRIDGESHIRE CB7 4EE  
Telephone: 01353 665555

MEETING: **OPERATIONAL SERVICES COMMITTEE**  
TIME: 4.30pm  
DATE: 9<sup>th</sup> September 2019  
VENUE: Council Chamber, Nutholt Lane, Ely  
ENQUIRIES REGARDING THIS AGENDA: Adrian Scaites-Stokes  
DIRECT DIAL: (01353) 665555 EMAIL: [adrian.scaites-stokes@eastcambs.gov.uk](mailto:adrian.scaites-stokes@eastcambs.gov.uk)

## Membership:

### Conservative Members

Cllr David Ambrose Smith (Chairman)  
Cllr Julia Huffer (Vice Chairman)  
Cllr Lis Every  
Cllr Amy Starkey  
Cllr Jo Webber

### Substitutes:

Cllr Anna Bailey  
Cllr Dan Schumann  
Cllr Lisa Stubbs

### Lead Officers:

Jo Brooks, Director Operations

### Liberal Democrat Members

Cllr Victoria Charlesworth  
Cllr Mark Inskip (Lead Member)  
Cllr Paola Trimarco  
Cllr Christine Whelan

### Substitutes:

Cllr Simon Harries  
Cllr John Trapp  
Cllr Alison Whelan

**Quorum:** 5 Members

## A G E N D A

- 1. Public Question Time**  
The meeting will commence with up to 15 minutes public question time
- 2. Apologies and Substitutions**
- 3. Declarations of Interest**  
To receive declarations of interest from Members for any items on the Agenda in accordance with the Members Code of Conduct.
- 4. Minutes**  
To confirm as a correct record the Minutes of the meeting of the Committee held on 17<sup>th</sup> June 2019

5. **Chairman's Announcements**
6. **Neighbourhood Recycling Centre Provision Update**
7. **Waste Collections for Private and Unadopted Roads**
8. **Quarter 1, 2019 Performance Report for the Waste and Street Cleansing Services**
9. **Budget Monitoring Report**
10. **Forward Agenda Plan**
11. **EXCLUSION OF THE PRESS AND PUBLIC**

That the press and public be excluded during the consideration of the remaining item no. 12 because it is likely, in view of the nature of the business to be transacted or the nature of the proceedings, that if members of the public were present during the item there would be disclosure to them of exempt information of Categories 1, 2 and 3 Part I Schedule 12A to the Local Government Act 1972 (as Amended).

12. **Exempt Minutes**

To confirm as a correct record the Exempt Minutes of the meeting of the Committee held on 17<sup>th</sup> June 2019

**NOTES:**

1. Members of the public are welcome to attend this meeting. If you are visiting The Grange during normal hours you should report to main reception desk, where you will be asked to fill in a visitor's pass that must be worn at all times whilst you are in the building. Please remember to return your pass before you leave.  
  
This will not apply if you come to an evening meeting: in this case you will enter via the rear access doors in the glass atrium at the back of the building and a Facilities Assistant will direct you to the room in which the meeting will take place.  
  
The maximum capacity for meetings in the Council Chamber has been set by the Fire Officer at 100 persons. Allowing for Member/Officer attendance and room layout constraints, this will normally give a capacity for public attendance of approx 60 people. Admittance to the Council Chamber is on a 'first come, first served' basis and public access will be from 15 minutes before the start time of the meeting.  
  
There are a number of schemes aimed at encouraging public participation in the Council's activities and meetings. These include public question time and a process to enable petitions to be submitted. Details of these can be obtained by calling any of the telephone numbers below or by logging onto the Council's website.
2. Fire instructions for meetings:
  - If the fire alarm sounds please make your way out of the building by the nearest available exit - i.e. the back staircase or the fire escape in the chamber. Do not to use the lifts.
  - The fire assembly point is in the front staff car park by the exit barrier.
  - This building has an auto-call system to the fire services, so there is no need for anyone to call the fire services.  
The Committee Officer will sweep the area to ensure that everyone is out of this area.
3. Reports are attached for each agenda item unless marked "oral".
4. If required all items on the agenda can be provided in different formats (e.g. large type, Braille or audio tape, or translated into other languages), on request, by calling Main Reception on (01353) 665555 or e-mail: [translate@eastcambs.gov.uk](mailto:translate@eastcambs.gov.uk)

5. If the Committee wishes to exclude the public and press from the meeting a resolution in the following terms will need to be passed:

“That the press and public be excluded during the consideration of the remaining items no. X because it is likely, in view of the nature of the business to be transacted or the nature of the proceedings, that if members of the public were present during the item there would be disclosure to them of exempt information of Categories X Part I Schedule 12A to the Local Government Act 1972 (as Amended).”

EAST  
CAMBRIDGESHIRE  
DISTRICT COUNCIL

## AGENDA ITEM NO. 4

Minutes of a meeting of the Operational Services Committee held in the Council Chamber, The Grange, Nutholt Lane, Ely on Monday 17<sup>th</sup> June 2019.

### **PRESENT**

Cllr David Ambrose Smith (Chairman)  
Cllr Victoria Charlesworth  
Cllr Lis Every  
Cllr Simon Harries (as a Substitute)  
Cllr Julia Huffer  
Cllr Mark Inskip  
Cllr Amy Starkey  
Cllr Jo Webber  
Cllr Christine Whelan

### **OFFICERS**

Lewis Bage – Communities & Partnership Manager  
Jo Brooks – Director Operations  
Richard Garnett – Senior Environmental Health Officer  
James Khan – Head of Street Scene  
Adrian Scaites-Stokes – Democratic Services Officer

### 3. **PUBLIC QUESTION TIME**

There were no public questions.

### 4. **APOLOGIES AND SUBSTITUTIONS**

Apologies were given on behalf of Councillor Paola Trimarco.  
Councillor Simon Harries acted as a Substitute Member for this meeting.

### 5. **DECLARATIONS OF INTEREST**

There were no declarations of interest.

### 6. **MINUTES**

It was resolved:

That the minutes of the meeting held on 30th May 2019 be confirmed as a correct record and be signed by the Chairman.

### 7. **CHAIRMAN'S ANNOUNCEMENTS**

The Chairman made the following announcements:

### Reduce Plastic Pollution

The Council had joined the Refill Revolution, an award winning campaign designed to help reduce plastic pollution, by allowing the public to refill their re-usable water bottles from the Council's reception water station. The refill station would be promoted by the global app and logo on the offices' front doors. This assisted with the Council's purge on plastics.

### Tackling Homelessness

The Council had been awarded the Silver Award by the National Practitioners Support Service, given to only 13 other authorities in the country. This confirmed that between 1-9 of the local challenges for the Gold Award had been achieved. The result of the final challenges was being awaited. This Award followed a considerable amount of work by the team.

### Local School Waste Promotion

The Council's waste team had organised an event at the Lantern Community Primary School to produce a giant fish out of litter. The Council's recycling hero, Michael Recycle, attended and helped the children create the fish. This was to help teach the youngsters about the importance of recycling.

## 8. **APPROVAL OF THE 2019/2020 FOOD AND HEALTH AND SAFETY SERVICE PLAN**

The Committee considered a report, U19, that looked to update the Council's food and safety service plans to satisfy the Food Standards Agency and Safety Executive requirements.

The Senior Environmental Health Officer advised the Committee that the Council was required to produce a draft annual plan by the Food Standards Agency. There were two amendments needed to the plan: the reference to the former Regulatory Services Committee should be changed to read Operational Services Committee; there was now no Councillor Champion for the service.

The latest plan was very similar to last year's and set out how the service was organised and how it would develop.

Councillor Lis Every thought it a comprehensive report but queried the support that was given to new businesses, as this was needed. Could this be explained and how they were helped to meet the relevant legislation requirements.

The Senior Environmental Health Officer stated that under the Food Safety Regulations new businesses had to register. This gave an opportunity to meet them, take them through what would be expected from them and help them with advice and guidance. Support would continue as the business grew.

Councillor Mark Inskip queried the date stated in the table under section 3.2. He noted that 44 certificates had been requested, the same number as the previous year, so was this the correct figure? Under section 4.6 a target had been

mentioned last year so was there any reason this had been omitted? How was performance measured to see if it was making a difference? It would be useful to hear the details on that to check whether the measures were being successful. It was noted that there had been big changes in the health and safety budget, so what was the cause of that?

The Committee was advised that the date under 3.2 should read 2019, so this would be corrected. The figures of 44 certificates for both years were correct. The target highlighted related to complaints work and all relevant information would be needed. A recent issue with contaminated results for the laboratories meant that the target had been removed as it was not practical to keep it. The performance measures had been brought in by a member of staff and related to businesses that were rated at 2 Star or whose ratings fluctuated. A couple of visits were normally arranged, with a three month gap, to help those businesses achieve a 4 or 5 Star rating. The legal standard was a 3 Star rating. There were record files for each of the businesses that set out their ratings and this was used to assess whether they were hitting their targets. If not, legal action could be taken. No answer could be given at the meeting about the budget figures, although it was noted that the health and safety role had been significantly reduced by legislation. Officers were asked to provide an explanation of those figures to the Committee.

Councillor Victoria Charlesworth asked how the projected figures for turnover of food businesses had been calculated. The Senior Environmental Health Officer explained that the figures had been work out on averages of previous years' numbers.

It was resolved:

That the East Cambridgeshire District Council Food and Health and Safety Service Plan at Appendix 1, as amended, be approved.

9. **END OF YEAR PERFORMANCE REPORT FOR THE WASTE AND STREET CLEANSING SERVICES**

The Committee considered a report, U20, that looked at the end of year performance for the Waste and Street Cleansing Services.

The Head of Street Scene reminded the Committee that the service had faced a monumental challenge during 2018-19, as it started with very low performance figures. However, the year had been very successful and the service had finished with very high performance figures. Although the service had vastly improved for the district's residents, efforts had also been taken to improve things for the staff. Targets had been amended to account for individual and company performance and new investment had been used for new vehicles, equipment and on employees. Community engagement had also been a priority, as this was expected to make a difference to the success of the service. This year the aim was to finesse the work already done.

Councillor David Ambrose Smith noted a few areas where performance had not met the targets and hoped these would be a priority in the coming year.

Councillor Mark Inskip was encouraged to see the improvement in emptying waste bins but was concerned about the litter bins on the market which became filled during the day. How widespread were the 'litter picks'? He also queried Table 1 under paragraph 4.1, as it was not clear what it referred to.

The Committee was informed that the Council was not responsible for the business waste as this service was provided elsewhere. The 'litter picks' were across the district and Ward Members could become involved. Table 1 showed all the key performance indicators between the Council and Street Scene. The targets were set by the Council for each individual service and the stretch targets were measured against the key performance indicators. The graph showed the cumulative targets, whilst the table on page 5 of the report showed the actual performance ratings, measured against the key performance indicators.

Councillor Mark Inskip was not convinced by the replies, as the figures showed the actual performance but not the targets. He asked that the targets and actual performance be provided.

Councillor David Ambrose Smith concurred and asked that those figures be provided in the future. He also recommended that all Members checked the Memorandum of Agreement between the Council and Street Scene, as it was important to understand the Agreement, and it showed the targets set.

Councillor Lis Every thanked the team for achieving what it had during the year. The service had moved light-years away from where it had been, as it was much improved. There had not been much to do with the Ely 'litter pick' as the service's van had been round clearing a lot up. A lot of time had been spent promoting the service and a survey had been commissioned about recycling, but what form would it take and what did it aim to do? It would be useful for Members to see the results.

The Head of Street Scene explained that the survey had begun and related to household waste. The household waste was being checked to see if any of it could have been recycled. After the survey was completed the information would be analysed to highlight any materials or food waste that should have been recycled. This then would be used to tailor the education plans to respond to the issue.

Councillor Christine Whelan questioned whether the 7am collection start time had changed, as bins were often being collected before then. The Head of Street Scene confirmed that 7am was the start time, though this could differ depending where in the district the collections took place, as vehicles would take longer to reach those places. He asked that he be notified of any such issues.

Councillor Jo Webber noted that the service had improved so much and that the staff were polite and returned the bins. However, she thought there should have been a service to remove graffiti on behalf of businesses and asked if this was still being provided, as she would like to inform businesses that this service was available. Could paper bags be sold to the public for them to use for food waste?

The Head of Street Scene confirmed that graffiti removal was part of the service. Any in public places was the responsibility of the Council so Street Scene could only offer a service for any on private land. Food waste going into household waste was an issue and bags had been considered previously. The bags available at that time had not been compatible with the processes involved but this could be looked at again.

Councillor Simon Harries noted that the litter bins in the city centre were overflowing and there were no recycling bins available in Ely. Were there plans to put them in place? There was a high level of confusion about what could be recycled and what happened to such material as there was a question whether it was being recycled. There were also a number of items that could not be put in the black bags so would not a bin be better.

The Committee was informed that work had been done on looking to install recycling bins but such bins became contaminated with other waste. Due to the increased costs it was not deemed feasible.

Councillor Julia Huffer stated that at the time when the wheelie bins were purchased by the Council it could not afford extra bins. A lot of people also did not have the room to accommodate an extra bin. A tour of the Cespa recycling facility would show Members exactly what happened to the waste collected.

The Director Operations stated that a trip to the waste facility could be organised for any Members. The process involved in dealing with the waste was extraordinary. Members could also go out with the waste crews to see what they did. When the Council was considering purchasing wheelie bins, a bin for household waste was looked at. However, it became apparent that the cost would have been too expensive at the time. The Government was thinking about a new waste strategy and it was hoped that funding could be available to help improve the waste services further. The service was also looking at what it wanted to provide and would check the survey results. This could lead to seeking additional funding for extra bins.

Councillor Victoria Charlesworth added her thanks to the team for the hard work they had put in.

It was resolved:

That end of year performance and the improvements made be noted.

10. **APPOINTMENT OF REPRESENTATIVES ON OUTSIDE BODIES & ANNUAL REPORTS**

The Committee considered a report, U21, that looked to confirm the nominated representatives to the outside bodies which fell within the remit of this Committee and to receive the annual reports from the previous appointed representatives.

Councillor David Ambrose Smith proposed several changes to the nominated Members, which was duly seconded by Councillor Julia Huffer. The nominated Member for the Cambridgeshire County Council Health Committee would be

himself with Councillor Julia Huffer as the Substitute Member. Councillor Amy Starkey would be the nominated Member of the Citizens Advice Bureau instead of Councillor Julia Huffer.

It was clarified that Councillors Lis Every and Christine Ambrose Smith would be the Members of the Community Safety Partnership, with Councillors Jo Webber and Alan Sharp as Substitutes.

Councillor Simon Harries did not agree with all the nominations as the Liberal Democrat group would like Members on two of the Outside Bodies. Councillor Mark Inskip concurred, as this would better reflect the political balance of the Council.

It was therefore proposed, and seconded, that Councillor Victoria Charlesworth be a Member of the Community Safety Partnership. On being put to the vote the proposal was declared lost.

It was then proposed, and seconded, that Councillor Mark Inskip be a Member of Sanctuary Housing Services Management Committee. On being put to the vote the proposal was declared lost.

The Committee then considered the amended nominations and on being put to the vote the proposal was declared carried.

The Democratic Services Officer thanked Janis Murfet for her efforts in organising the annual reports, declaring them to be the best set of reports ever.

It was resolved:

- (i) That the appointment of the proposed nominated representatives, to those outside bodies which fall within the remit of the Operational Services Committee, as set out in Appendix 1 to the report, as amended, be confirmed;
- (ii) That the Annual Reports from appointed Council representatives on the activities and manner in which funding is spent by the outside bodies within the responsibility of the Operational Services Committee be noted.

## 11. **FORWARD AGENDA PLAN**

The Chairman reminded Members that the Committee meeting scheduled for 15<sup>th</sup> July had been cancelled.

12. **EXCLUSION OF THE PRESS AND PUBLIC**

That the press and public be excluded during the consideration of the remaining item no. 11 because it is likely, in view of the nature of the business to be transacted or the nature of the proceedings, that if members of the public were present during the item there would be disclosure to them of exempt information of Categories 1, 2 and 3 Part I Schedule 12A to the Local Government Act 1972 (as Amended).

13. **COMMERCIAL MOORING AT ELY RIVERSIDE**

The Committee considered an exempt report, U22, with reference to awarding a licence at Ely riverside.

The Communities & Partnership Manager advised the Committee about the issue, the actions taken by officers and the outcome. The Committee was reassured that the best outcome and value for the Council and the riverside had been obtained.

It was resolved:

- (i) That awarding of a licence be approved;
- (ii) That officers be instructed to proceed with finalising the licence agreement.

The meeting concluded at 5:29pm.

---

**TITLE: NEIGHBOURHOOD RECYCLING CENTRE PROVISION UPDATE**

Committee: Operational Services Committee

Date: 9<sup>th</sup> September 2019

Author: Darren Hughes

[U56]

---

**1.0 ISSUE**

- 1.1 To determine the future provision of the 5 remaining neighbourhood recycling centres (commonly referred to as bring banks).
- 1.2 To provide the Committee with a review of the bring bank sites over the past twelve months.

**2.0 RECOMMENDATION(S)**

- 2.1 Following the committee report on 10<sup>th</sup> September 2018, Members are requested to:
  - i. Note the information and findings from the review of the 5 remaining bring bank sites over the previous twelve months.
  - ii. Approve the removal of the remaining 5 bring bank sites from the District.

**3.0 BACKGROUND**

- 3.1 Before the introduction of a kerbside recycling scheme, bring bank sites provided residents with a local method to dispose of their recyclable waste responsibly. Residents are also able to dispose of this waste at a number of household recycling centres.
- 3.2 A review of kerbside collections in 2013 identified a need to improve the waste collection service for our residents, especially the way in which residents dispose of their recyclable waste. Following this review, ECDC introduced wheeled bins for their recyclable waste. The introduction of these bins meant that residents were able to dispose of the waste they would have previously taken to bring banks reducing their usage.
- 3.3 In April 2018, an additional blue bin scheme was introduced for a one off cost of £25 per bin to accommodate residents who had an excess of recycling waste. This in turn reduced the usage of the bring banks further.

- 3.4 Both initiatives have resulted in our recycling rate improving consistently over the past six years and continues to provide our residents with an efficient and cost effective alternative to taking excess recyclables to a neighbourhood recycling centre. The recycling rate has improved by 0.5% in the past twelve months, equivalent to an increase in 86 tonnes of recyclable material collected.
- 3.5 In September 2018, Committee approved the removal of 30 of the lowest performing bring bank sites. This was assessed against the quality of recyclates and contamination levels. This left 5 of the highest performing sites; Tesco's-Ely, Waitrose- Ely, Soham, Chippenham and Cheveley.
- 3.6 Members also tasked officers to carry out on-going performance reviews of the remaining sites over a 12 month period, the results of which are detailed later in the report.
- 3.7 A total of 26 large 1100L mixed dry recyclable banks across the 5 sites are currently provided. This service accepts the same materials as the kerbside collection. This breaks down as follows:
- Tesco's, Ely – 7 bring banks
  - Waitrose, Ely – 5 bring banks
  - Fountain Lane, Soham – 6 bring banks
  - Village Hall, Chippenham – 4 bring banks
  - Recreation Ground, Cheveley – 4 bring banks
- 3.8 At present ECSS pays Chippenham and Cheveley Parish Councils to host bring banks on their land at a total cost of £990 per year. These are historic payments and therefore were continued during the 12 month review period.

#### 4.0 ARGUMENTS

- 4.1 Although there are no direct financial implications to ECDC for providing the bring bank service, as the Council is the only shareholder of East Cambs Street Scene (ECSS) there will be implications which would impact on future waste provision for our residents e.g. upgrading litter bins or purchasing additional waste equipment.
- 4.2 Over the previous 12 months ECSS has monitored the bring banks sites for levels of recycling, incidents of fly-tipping and contamination or vandalism to the banks. Crews have reported that residents have broken the locks to get into the bins to enable them to put in full black sacks or contaminated materials (please see Appendix A).

- 4.3 If ECSS were to continue to be responsible for the collection and management of the bring bank sites an initial investment of £26,000 would have to be made. This investment would be towards more robust bins with tougher locking mechanisms, at £1000 per unit, to reduce the risk of contamination due to residents breaking the locks to dispose of non-target material.
- 4.4 Crews have been investigating the contents of black sacks placed inside the bins or alongside them, to ascertain levels of contamination and recycling.
- 4.5 Whilst the majority of items being placed within the black sacks are usually good quality recyclates, this action could pose a serious health and safety risk to our staff who could be exposed to dangerous waste materials. Black sacks are classed as contamination which will affect our recycling rates and recycling credits.
- 4.6 Higher contamination rates across the sites affects the Council's ability to receive recycling credits (which is money paid from the County Council dependant on the quality and of recycling). Under the recyclable waste contract ECDC has with Amey, if the Districts' contamination rate exceeds 7% a fine will be applied (the rate of which isn't a standard rate as it is calculated against the quality of the recycling that month).
- 4.7 Appendix B shows the breakdown of costs associated with the bring banks across the District. Over the previous 12 months the total cost to provide this service by ECSS was £35,556.59.
- 4.8 During the next 12 months we estimate that this will increase to £61,556.69 (which takes into account the one off cost of purchasing new bins with more robust locking mechanisms).
- 4.9 Moving forward, we estimate that the annual costs to ECSS will continue to be in the region of £36,000 which takes into account inflation and similar contamination levels. It is impossible to accurately forecast the figures as we are unable to determine the levels of contamination and crew intervention to remove any fly-tipping incidents from the 5 bring bank locations. This is on top of the costs associated with providing the household waste collections and is an additional burden on existing budgets which will affect future waste provisions provided to the residents of the district.
- 4.10 Fly-tipping continues to be a serious problem across the sites. The Environmental Health Team has been investigating these and has issued warnings and Fixed Penalty Notices for fly-tipping at Tesco's Ely and Soham as follows: 5 Investigations leading to two Fixed Penalty Notices and one warning.
- 4.11 ECSS is contacted on a regular on-going basis by Tesco's store manager regarding fly-tipping incidents. In addition, there have been a number of fly-

tipping incidents reported from other sites by the public via the CRM system - 12 x for Soham, Fountain Lane and 2 x for Tesco's.

- 4.12 This fly-tipping has led to additional resource being deployed from ECSS and has subsequently resulted in the team being redirected from planned street cleansing schedules to remove the fly-tipping. This in turn has a negative effect across the entire district. The Environmental Health Officer has also provided additional resource time to help stop contamination and fly-tipping.
- 4.13 Second blue recycling bins are available to all residents who already exceed the capacity of their first wheeled bin for a fixed one-off charge of £25. Approximately 1,012 additional wheeled bins have been delivered from 1<sup>st</sup> April 2018 to date.
- 4.14 Across East Cambridgeshire, and within our neighbouring authorities, residents have access to main household recycling centres (HWC) for larger amounts of recyclable waste and other recycling sites. A mapping exercise has been conducted to determine the distance of the household recycling centres from the existing bring bank sites.

Ely – Witchford HRC – 2.5 Miles – All Materials  
Ely – Sainsbury's – 1 mile – All Materials  
Soham – Witchford HRC – 7.5 Miles – All Materials  
Soham – Ely Sainsbury's – 6.5 Miles – All Materials  
Chippenham – Tesco Newmarket – 4.5 Miles (Paper & Glass only)  
Chippenham – Witchford HRC – 12.5 Miles – All Materials  
Cheveley – Tesco Newmarket – 4.4 Miles (Paper & Glass only)  
Cheveley – Milton HRC – 16 Miles – All Materials

## 5.0 OPTIONS

- 5.1 The Council has contacted all of the parish and town councils where the 5 sites are located to ensure that they are fully engaged with as part of this review. Each one has been asked to confirm that they are still happy that this service continues, whether there have been any fly-tipping or contamination issues on the sites that they are aware of, or, should ECDC decide to continue to offer this service, whether they would be prepared to make a financial contribution?:
- Cheveley Parish has stated that they would be happy for all of the bring banks to be removed as they appear to contribute to fly-tipping and littering. The site is a health hazard. They further explained that the space would be better utilised for car parking. As all households have a blue bin, the bring banks are not essential.
  - Chippenham Parish Council stated that they will not pay a fee to retain the bring banks. They are well used by the community and that the money paid by ECDC helps to maintain the surface of the carpark which the banks are stored on.
  - Soham Town Council has said that the bring banks are popular with residents and commented that they have had fly-tipping incidents,

however with the CCTV and better enforcement from ECDC this will help. They said that any decision on charging Soham Town Council to empty the bring banks would be a District Council decision.

- Ely Town Council stated that they would like the bring banks to continue within Ely, however they would not be prepared to make a financial contribution to keep them. They also explained that as the banks are sited at Tesco's and Waitrose they are unsure whether there have been fly-tipping incidents and the level of usage.

## 5.2 Members are asked to consider 2 options;

**Option 1-** Status quo. This would continue to cost ECSS approximately £36,000 per year moving forward and an immediate one off cost of £26,000 to purchase new more robust bins.

Although new bins will reduce the opportunity for residents to contaminate banks with black sacks, it does increase the risk that residents will fly tip their waste in other areas of the district.

Data has evidenced that usage of the bring banks across the 5 sites is low. The household kerbside service currently collects an average of 607.64 tonnes of dry recycling per month compared to 14.8 tonnes collected per month from bring banks (the 14.8 tonnes is the weighbridge tonnage figure prior to contamination levels being taken into account).

**Option 2-** Remove all of the 5 remaining bring bank sites across the District.

ECDC provides its residents with an efficient, high performing and well used comingled kerbside recycling service. This service is engineered to have minimal impact on the user allowing them to dispose of a wide variety of materials in one receptacle and is collected from their property on a fortnightly basis.

Where residents have an excess of recyclates material they can either take them to a household recycling centre (HRC), within the District or other local recycling sites or purchase an additional blue bin at a one off cost of £25.00.

The Waste Service will work with Prominent PR to highlight this provision so residents understand the options available to them.

## 6.0 CONCLUSIONS

- 6.1 The 5 remaining bring banks continue to be of concern due to the high levels of contamination and number of fly-tipping incidents that occur in their vicinity. In addition, the bring bank service is costing ECSS over £35,559 per year.
- 6.2 26 new bins must be purchased to help stop vandalism from residents at a one off cost of £26,000 making a total estimated cost to ECSS for the next 12 months £61,556.59. This puts an additional strain on current resources and would hinder future aspirations of East Cambs District Council, its residents and ECSS, in areas such as the purchase of new dog bins or litter bins and the purchase of new waste vehicles.
- 6.4 Residents are provided with an efficient, high performing blue bin recycling service that captures all waste that would be disposed of at a bring bank. Should they wish to purchase an additional bin to support a higher level of recycling, these can be provided at a one off cost of £25.
- 6.5 The additional resource to remove fly-tipping is currently taking away resource from ECSS which is having an impact on the efficiency and performance of their street cleansing service.

## 7.0 FINANCIAL IMPLICATIONS/EQUALITY IMPACT ASSESSMENT

- 7.1 There are no direct financial implications to ECDC, however there are indirect financial implications as ECDC is the only shareholder of ECSS.
- 7.2 Equality Impact Assessment (INRA) is not required at this point.

## 8.0 APPENDICES

- 8.1 Appendix A- Photos showing examples of contamination across the five bring bank sites.
- 8.2 Appendix B- Breakdown of costs

---

<u>Background Documents</u>	<u>Location</u>	<u>Contact Officer</u>
Neighbourhood Recycling Centre Provision, Regulatory Services, 10 <sup>th</sup> September 2018	Room 207 (Location: i.e. The Grange,) Ely	(Name) Darren Hughes (Position) Development Officer (01353) 616298 E-mail: Darren.Hughes@eastcambs.gov.uk

APPENDIX A –

Examples of non-recyclable materials across the bring bank sites

Video Tapes put into the dry recycling bin

Black Sack with contaminated waste put into a dry recycling bin

Black Sacks, wood and other unacceptable materials in the dry recycling bin

Plastic film and sacks in the dry recycling bin

## Appendix B

**TABLE 1**

The following table shows the cost to East Cambs Street Scene to empty the 5 bring sites over the previous 12 months. It is based on crews working two shifts per week to clear fly-tipping and empty the dry recycling bins (fly-tipping disposal costs are paid by the County Council but are noted as it is still a cost to tax payers).

N.B - The average fly-tipping removed is 2.88 tonnes per month; the average dry recycling collection weight is 14.8 tonnes per month.

Previous years' service costs for Sept 18 to Sept 19	
<b>Operations - Cost per shift</b>	
1 x 26T Dustcart	£160.00
1 x HGV Driver	£85.60
1 x Operative	£73.92
1x 3.5T Cage (2 Hrs)	£20.00
1 x Non-HGV Driver (2 Hrs)	£19.60
Total Cost per Shift	£359.12
<b>Disposal Costs Per Tonne</b>	
Fly Tip Disposal (Paid by CCC)	£91.35
Recycling Credits	-£33.44
<b>Estimated Annual Costs</b>	
Operations	£37,348.48
Disposal (1)	£3,157.06
Recycling Credits (2)	-£5,938.94
Site payment cost	£990.00
Total Costs	£35,556.59

**TABLE 2**

The table below details the estimated costs to East Cambs Street Scene from Sept 2019-Sept 2020 based on the previous years' cost analysis. It is assumed that the level of contamination and fly-tipping will stay the same but with the added cost of £26,000 for new bins with more robust locking mechanism

Estimated cost analysis from Sept 2019-Sept 2020.	
<b>Operations - Cost per shift</b>	
1 x 26T Dustcart	£160.00
1 x HGV Driver	£85.60
1 x Operative	£73.92
1x 3.5T Cage (2 Hrs)	£20.00
1 x Non-HGV Driver (2 Hrs)	£19.60
Total Cost per Shift	<u>£359.12</u>
2 Shifts per week x 52 weeks	
Total Operations Cost 2019/20	<u>£37,348.48</u>
<b>Disposal Costs Per Tonne</b>	
Fly Tip Disposal (Paid by CCC) (2)	£91.35
Recycling Credits	<b>-£33.44</b>
<b>Estimated Annual Costs</b>	
Operations	£37,348.48
26x new bins	£26,000
Disposal (3)	£3,157.06
Recycling Credits (4)	<b>-£5,938.94</b>
Site payment cost	£990.00
Total Costs	<u>£61,556.59</u>

Moving forward it is estimated that the service will cost approximately £36,000, which takes into account inflation costs.

**TITLE: WASTE COLLECTIONS FOR PRIVATE AND UNADOPTED ROADS**

To: Operational Services Committee

Date: 9<sup>th</sup> September 2019

From: Hetty Thornton - Performance Management Officer

[U57]

1.0 Issue

- i) To determine the future provision for refuse collections on private and unadopted roads
- ii) To review the assisted collections register in order to continue to offer support to our most vulnerable residents

2.0 Recommendations

2.2 Following on from a previous endorsement by Regulatory Services Committee, Members are requested:

- i) To approve the “Introduction of the Policy for Providing Waste Collection Services to Private and Unadopted roads and project plan” (Appendix A)
- ii) To instruct officers to undertake an annual review of the assisted waste collections
- iii) Delegate authority to the Director, Operations at ECDC for all issues arising from the Project Plan and the corresponding assisted waste collection review

3.0 Background

3.1 Unadopted and private roads are not maintained by a highway authority (county council) as defined by the Highways Act 1980. The duty to maintain the road falls to the frontagers i.e. the owners of the property fronting the road, which could also include the side, length or where their property fronts the unadopted road.

3.2 The Environmental Protection Act (EPA) 1990 places a duty on local authorities to collect household waste in their area. The EPA allows the local authority to specify where waste and recycling should be placed for collection.

3.3 The Council currently provides a waste service collection point for waste and recycling receptacles at the edge of the property where it meets the public highway. Collections have continued to be made to remote properties accessed on private and unadopted roads which can not only present a health and safety risk to the crews and public but in many cases they do not meet the legislative requirements set by the Highways Standards Agency and are therefore not adopted by the County Council. This poses and health and safety risk to the public and the waste collection crews.

3.4 In November 2017, Regulatory Services Committee endorsed the “Introduction of the policy for waste collections from private and unadopted roads and project plan” (Appendix A).

3.5 Following Committee endorsement, officers in Waste Services have been undertaking a mapping process of private and unadopted roads (see Appendix G). This has identified 2,249 properties (of which 716 are owned by housing associations, 170 properties are on studs and 462 properties are located on sites which are under managing agents or park homes). All of the 2,249 properties would be directly affected by the proposals in the policy and the quality of such roads against ECSS minimum road standards set out from 2.1 in the “Policy for providing waste collection services to private and unadopted roads” (Appendix A). It is important to note that this figure will be changeable due to new housing developments and where a new road is adopted by the County Council.

#### 4.0 Arguments

- 4.1 Waste vehicles are assets of ECDC and therefore any damage caused to them must be paid for by the Council. For Member information, the cost of a new waste vehicle is approximately £160,000.
- 4.2 As the shareholder, ECDC must work collaboratively with ECSS, however if ECSS was a private company the risks of accessing substandard private and unadopted roads would outweigh the benefits and therefore they would refuse to attend to residents located on such roads. Veolia took on this work historically as it was a part of the contractual agreement with ECDC. It would be unlikely that any private organisation would accept these terms and conditions due to potential insurance claims resulting from accessing substandard private and unadopted roads.
- 4.3 As an employer, ECSS has a legal requirement to ensure the continued safety of all its employees.  
In order to comply with these regulations ECSS must take the necessary steps to ensure its employee's work environment meets the required standards set.
- 4.4 Where any employee's work environment has been deemed unsafe, ECSS has a duty of care to ensure that exposure to such conditions does not occur.
- 4.5 To ensure that ECSS can continue to deliver the highest level of service possible, at best value for the residents of the District, the company needs to implement any mitigation against any financial risks. Therefore, the company will need to ensure that any spend associated with vehicle maintenance is genuine and other additional costs negated where possible.
- 4.6 Some private and unadopted roads across the District are in substandard conditions which has led to damage to vehicles and additional maintenance costs. Unfortunately historically these costs were not recorded by Veolia so it is difficult to attribute exact costs, however these figures are now being recorded. Examples of the sorts of roads which are sub-standard can be found in Appendix F.
- 4.7 Many private and unadopted roads have soft verges. Refuse collection vehicles of 18 or 26 tonnes have high centres of gravity compared to other trucks and are more prone to topple over in such conditions. This presents a serious safety risk to members of the crew and the public.
- 4.8 Overhanging trees on unkempt verges can impede vehicles from accessing a property, or cause damage to vehicles and employees.
- 4.9 The conditions of the roads, including deep potholes and obstructions can cause injury to people or damage to the vehicles.
- 4.10 Collections from remote properties on private roads can incur significant amounts of time for the collection crews to access which reduces collection rates and negatively effects service delivery performance.

#### 5.0 Proposal on future provision

- 5.1 To ensure that ECSS meets its legal health and safety requirements as an employer and that of its residents, and it is not left open to compensation claims made by the public for damage to properties or vehicles etc. resulting from accessing roadways in substandard road conditions, the following information sets out the salient points from the Policy for Waste Collections from Private and unadopted roads:
- i) House owners on private or unadopted roads will be required to ensure that the standard of such roads meet the minimum standards highlighted in the policy. Where this is not undertaken alternative collection arrangements will be

made whereby the resident will be required to take their wheeled bins and sack collections to the point where the road meets the public highway.

- ii) Where a property is located on a private or unadopted road the house owner will be required to sign an Indemnity Agreement so that ECSS and the Council will not be liable for any damage due to wear and tear of the road surface sustained as part of routine waste collection. If all of the property owners on a private or unadopted road do not agree to sign the Indemnity Agreement (Appendix B), then a roadside collection at the point of where the road meets the public highway will be required (subject to a risk assessment by ECSS).
- 5.2 Where there is a private or unadopted road which ECSS does not currently access, this will remain as the status quo. However, we will look to review these at a later date. In most cases it would be impossible for waste services to access such roads, due to the width, lack of turning area, condition of the road etc.
  - 5.3 A review will be undertaken to run alongside the private and unadopted roads policy which will assess each resident currently provided with an assisted waste collection.
  - 5.4 Currently, when a resident requests an assisted waste collection they must verbally demonstrate that they are infirm, disabled or have a medical condition which means that they are unable to put their waste out for collection and there are no other people residing within the property who are able to undertake this task. This assessment is carried out by Customer Services Advisors over the phone.
  - 5.5 To ensure that our most vulnerable residents continue to be provided with a household waste collection, it is necessary to carry out a review of residents on the assisted collections list.
  - 5.6 The Council's 2014 Waste Collections Policy states that the Council may request evidence from a resident to show that they continue to require an assisted collection. We would therefore like to contact each resident to obtain a medical note or if a resident is unable to supply this and still requests an assisted collection, then a home visit will be arranged with a member of the ECSS team.
  - 5.7 The review will ensure that our most vulnerable residents will continue to have an assisted waste collection.
  - 5.8 For all future developments located on private or unadopted roads, including individual dwellings, Waste Services will take a proactive approach and contact the developer as soon as a new development has planning permission. The developer will be required to sign the Indemnity Agreement for the whole site on behalf of the residents, which is not dependent on whether they have moved in to the property (Appendix B). Once the road is adopted by the County Council the indemnity agreement will not be required. This will be undertaken in partnership with Planning Services.
  - 5.9 If a road is substandard or becomes substandard overtime (even after the Indemnity Agreement is signed), ECSS will not access the road by either its crew or vehicles until the minimum standard is met again. If this happens, all effected residents will be informed and a temporary collection location, at the public highway, will be agreed to ensure collections can continue until the standards are met.
  - 5.10 An annual review of each private and unadopted road will be conducted against the criteria set out within the Project Plan. If ECSS highlights concerns of a road being of a substandard nature during the intervening month's measures will be put in place. Each road will be assessed on an individualised basis.
  - 5.11 If a homeowner of a property fails to sign the Indemnity Agreement within one month of receiving the document, it shall be at the discretion of the Director, Operations to decide whether, following a full assessment by ECSS, the road is of such a poor condition that the

crews and vehicles will not be safe to enter, then an arrangement will be made with all affected residents whereby waste will be collected from a point where the road meets the public highway.

- 5.12 To ensure all of the residents in the district, including those not directly affected are fully aware of the implications and changes proposed as part of this policy, ECDC and ECSS will work with Prominent PR to create and issue a statement of intent. This will include information explaining the current situation, the details of work we are carrying out and the positive impact this will have on waste collection for the entire district.

## 6.0 Conclusion

- 6.1 East Cambs Street Scene Ltd (ECSS) currently provides a waste collection service to residents on a number of private and unadopted roads. Some are not built to the required standards. This provision is putting the public and waste crews at risk due to health and safety concerns.
- 6.2 Private and unadopted roads are causing unnecessary damage and additional maintenance costs to waste vehicles due to substandard road conditions. Similarly, ECSS and the Council are left exposed to possible insurance claims from damage caused as a direct result of accessing private and unadopted roads in poor conditions.
- 6.3 ECSS are working continually to improve the performance of our waste collection service. By providing a waste collection service on roads in substandard conditions this is impacting on the efficiency of the team hindering future efficiencies and performance improvements.
- 6.4 ECSS will work in partnership with residents located on private and unadopted roads. The proposal will still enable assisted waste collections to continue but ensures that a suitable alternative solution will be put in place if issues are highlighted.

## 7.0 Financial Implications

There are no financial implications associated with this report, only officer time.

## 8.0 Equality Impact Assessment

- 8.1 An Equality Impact Assessment has been completed. Please see Appendix D

## Project Plan: Introduction of the Policy for Waste Collections from Private and Unadopted Roads

### 1. Introduction

- 1.1 The Council currently operates a collection point for waste at the edge of a property where it meets the public highway. When the wheeled bin service was introduced, collection continued from remote properties accessed from private or unadopted roads. Collection from new properties, however, or those properties which were assessed following collection issues, changed to a collection point on the public highway, requiring residents to move their bins to that point of collection.
- 1.2 Collection of these remote properties can incur a significant amount of time for the collection crews. In addition, many of these properties are located down roads in very poor condition and there have been instances where the Waste Service has caused damage to its vehicles incurring vehicle repair and maintenance costs. These roads are not normally built to highway standard; often have soft verges and overhanging trees. In addition, several roads must be reversed down for considerable distances, sometimes in the dark, with no safe place for an employee to operate as a reversing assistant to see the vehicle safely back.
- 1.3 Waste vehicles are assets of ECDC and therefore any damage caused to them must be paid for by the Council. This puts added financial pressure on the Council. It must ensure that mitigations are put in place to reduce possible insurance claims and repair costs caused as a result of substandard private and unadopted roads.

### 2. New Policy for Waste Collections from Private and Unadopted Roads

- 2.1 In a small number of cases due to the access or the remote location of a property it may not be possible for residents to place bins near the public highway for collection. In certain circumstances a collection from a point on a private/unadopted road may be agreed subject to an inspection and the following conditions being met:
  - a) **Road surface:** Roads must be of sound construction with a suitable hard surface, free of large/deep potholes and obstructions which could cause damage or injury to vehicles or persons. The vehicle should be able to travel safely at 25 kmph along the road
  - b) **Road width:** The minimum road width is no less than 3.5 metres with no obstruction from trees, shrubs etc. which could cause damage to the vehicle
  - c) **Road length:** If there are several properties located down a road, then there should be passing places, suitable for a refuse collection vehicle (hard surface, not a verge)
  - d) **Height clearance:** The minimum clearance should be no less than 5.5 metres with no obstruction from overhanging branches, cables etc. which could cause damage to the collection vehicle
  - e) **Turning area:** Where a through road does not exist, a suitable turning area must be available to allow the vehicle to turn. The turning area should have a hard surface which is of a sufficient size to allow an 11.5-metre-long vehicle to turn with no more than three manoeuvres and have sufficient space either side of the

## Appendix A

vehicles to safely turn in the dark. Collection vehicles shall not reverse onto a public highway to turn around

- f) **Access:** There must be access for the collection vehicle. Any gates must be left unlocked and open as our crews will not open and close these when undertaking collections
- 2.2 **Indemnity:** An indemnity will be required from the road owner/s so that the Council will not be liable for any damage due to wear and tear to the road surface which is unlikely to have been built to highway standard. In addition, where a new development is being built or has been recently completed and the road is not yet adopted by the County Council the developer must sign the developer's indemnity agreement.
- 2.3 For all future developments located on private or unadopted roads, including individual dwellings, ECSS will take a proactive approach and contact the developer as soon as a new development has planning permission (this will be carried out in partnership with Planning Services). The developer will be required to sign the indemnity agreement for the whole site. The indemnity agreement will stay in place until such time as the County Council adopts the road.
- 2.4 **Alternative Collection Arrangements:** Where the conditions above cannot be met then the collection point will be where the private/unadopted road meets the public highway. If this location is not suitable for wheeled bins, then alternative collection arrangements may be made, such as a sack collection or a communal collection point if there are several properties located on a private/unadopted road. In some circumstances a collection point part of the way down a private/unadopted road may be used if the above criteria can be met at that point.
- 2.5 **Assisted Collections:** Currently, when a resident requests an assisted waste collection they must verbally demonstrate that they are infirm, disabled or have a medical condition which means that they are unable to put their waste out for collection and there are no other people residing within the property who are able to undertake the task. This assessment is carried out by Customer Service Advisors.
- 2.6 The Council's 2014 Waste Collections Policy states that the Council may request evidence to support the residents' application for an assisted collection. We will therefore be contacting each resident to obtain a medical note or, if a resident is unable to supply this and still requests an assisted waste collection then a home visit will be arranged with a member of ECSS.
- 2.7 **Adverse Weather:** In adverse weather conditions where waste crews are concerned regarding visibility of the road, e.g. due to snow cover or icy conditions where they feel the vehicle may slip off the road then the service, will suspend collections to such properties. Waste will need to be placed on the public highway for collection, or it will be collected on the next scheduled collection day if conditions have improved.
- 2.8 If a road is substandard or becomes substandard overtime (even after the indemnity agreement is signed), ECSS will not access the road by either its crew or vehicles and it will be assessed against the criteria listed under 2.1 of this Project Plan.
- 2.9 An annual review of each private and unadopted road will be conducted against the criteria set out within the Project Plan. If ECSS highlights concerns of a road being of a substandard nature during the intervening month's measures will be put in place. Each road will be assessed on an individualised basis.

## Appendix A

- 2.10 Residents will be updated forthwith on any decisions made from actions taken by ECSS following any interim road condition assessments.

### **3. Implementation Requirements**

- 3.1 The Assistant Managers of ECSS with support from the Development Officer shall confirm a schedule of private and unadopted roads potentially impacted upon by the new policy.
- 3.2 Before implementing such a policy, the Assistant Manager shall survey all the potentially affected roads against the above policy criteria. This exercise will confirm the roads, which subject to an indemnity, are suitable for collections and the roads that will need to be served by an agreed collection point at the head of the road or on mid-point of the road.
- 3.3 The Development Officer shall write to all the properties advising them of the policy and how it is to be implemented.
- 3.4 Where residents have concerns the Assistant Manager of ECSS will arrange to meet them on site to discuss the issues and try and come to a mutual solution. This will be done on a phased basis due to the potential number of locations the Assistant Managers may have to visit. Wherever possible the Assistant Manager will be looking to see whether an alternative collection point could be agreed (for instance this may be half way down the track where the vehicle can turn), or whether the service needs to consider an alternative collection method (such as sacks rather than bins to help facilitate collections). If all the owners of a track/road do not agree to provide an indemnity then a roadside collection will be necessary.
- 3.5 Detailed in Table 1 overleaf is the project plan for the implementation of the new policy.

Appendix A

**Table 1: Project Plan: Introduction of the Policy for Providing Waste Collection Services to Private and Unadopted Roads - (Version 4– July 2019)**

Key Action Point – for 1 April 2019	Actions	Start Date	Expected End Date (RAG Rating)	Responsible Manager/Officer	Updates
Inform the residents affected by the introduction of the policy of the new policy and the implementation arrangements by letter.	The standard letter prepared for this purpose will be delivered to each property affected.	September 2019	November 2019	Development Officer	
Contact all residents on the assisted waste collections database to ensure that ECSS continues to support our most vulnerable residents	<ul style="list-style-type: none"> <li>a) Send letter to all residents who have an assisted waste collection to request medical evidence to continue this arrangement</li> <li>b) Where a resident is unable to provide medical evidence set up and complete site meetings to look at a flexible solution</li> </ul>	<ul style="list-style-type: none"> <li>September 2019</li> <li>September 2019</li> </ul>	<ul style="list-style-type: none"> <li>September 2019</li> <li>November 2019</li> </ul>	Development Officer and ECSS Assistant Managers	
Notification of the outcome of the surveys conducted to the residents from the affected roads and the future arrangements for collection services, including if necessary for an indemnity agreement	<ul style="list-style-type: none"> <li>a) Using the prepared letter template, insert details of the inspection and the consequent amended collection arrangements as required.</li> <li>b) If required, including with the letter of indemnity agreement, the residents need to sign to support the future collection arrangements.</li> <li>c) Creation of a filing system for all correspondence sent to the residents and for signed indemnity agreements (to be compliant with GDPR regulations).</li> </ul>	September 2019	October 2019	Development Officer

Review of the implementation of the new collection arrangements and initiation of any required remedial action.	<ul style="list-style-type: none"> <li>a) Review delivery of the project and the need for any remedial action.</li> <li>b) Address any issues or problems that have arisen for the implementation of the policy.</li> <li>c) Update key Members on the initial review outcomes</li> </ul>	January 2020	February 2020	Head of Street Scene	

**RAG Rating:**

	Overdue
	Work in Progress
	On Schedule

## Appendix A

### 4. Project Management Arrangements

4.1 The following project management arrangements will be put in place to support the delivery of the project plan.

- a) The Project Sponsor will be the Director, Operations.
- b) The Project Lead will be the Head of Street Scene.
- c) The Project Manager will be the Performance Management Officer.
- d) Reporting of progress against the project plan will be monthly at the scheduled Waste and Street Cleansing Leadership Team Meeting, which will act as the Project Board with an up to date project plan.
- e) The actions required in the project plan will be managed within existing line management arrangements and the relevant line managers must ensure progress and report any issues arising to the Performance Management Officer.
- f) The project will be delivered within existing resources.

Dear Mr/Mrs

**Re: Refuse and Recycling Collections from \*Road Name\***  
**S. 46 Environmental Protection Act 1990**

Under S.46 of the Environmental Protection Act the Council is entitled to specify where refuse containers must be located in order to facilitate their collection. The Council's normal practice is to carry out refuse and recycling collections from the property boundary for households located on adopted roads, this is described as where a front path or drive meets the public road or pavement and the Highways Authority is responsible for the maintenance of these roads.

In the case of private roads such as **\*Road Name\***, the Council's normal practice is to specify a location adjacent to the public highway where householders are required to place their refuse and recycling containers for collection, residents of private roads are responsible for the maintenance of those roads and therefore the Council will not normally enter these.

Currently the Council collects refuse, recycling, food and garden waste from all properties by accessing **\*Road Name\***  
**OR (delete as appropriate)**

Historically the Council has entered **\*road name\*** to collect waste and recycling and would like to do so but requires the attached indemnity to be signed to continue to do so by each property owner responsible for paying for the maintenance for **\*road name\*** - or an agent authorised to act on their behalf.

Alternatively the Council can specify **(as per S.46 EPA 1990 (as amended))** an alternative collection point for the properties of **\*Road Name\***, and responsibility for bringing the containers to that point will rest with the residents.

If you wish to continue ECDC and its agents' collection of waste from **\*road name\*** please sign and return the waiver overleaf and return this as soon as possible. Please retain a copy for your records and do not hesitate to contact me if you require any further information. **(delete as required)**

Please note, only the property owner can sign the indemnity agreement. If you are a tenant please ensure the owner receives this letter.

Yours faithfully,

Darren Hughes,  
Waste Minimisation Officer  
East Cambridgeshire District Council

Appendix B1

**Damage Liability Waiver/Indemnity agreement**

I confirm that I the owner of , am the person responsible for the maintenance of said road.

I hereby request the Council to carry out collections of refuse, recycling, food and garden waste (“Waste”) from \*Road Name\*, using a '26 tonne vehicle where and when possible, or any similarly sized vehicle belonging to or operated by contractors on the Council’s behalf, as I do not wish to/am unable to leave my waste at an alternative collection point specified by the Council. I understand that collection vehicles require access to \*Road Name\* to collect Waste from the domestic properties at \*Road Name\*.

I confirm that access will be freely given to the 26 tonne vehicle (or similar) and I will not make any claims or institute any proceedings against the Council or its contractors for any damage caused, including but not limited to, damage caused to any pavements, kerbs and the road itself, by the 26 tonne vehicle in the normal course of collecting Waste. I hereby release the Council and its contractors from any and all liability, claims, demands, and actions arising in connection with or related to such damage.

I acknowledge and represent that, having read and understood this waiver, and being fully competent to sign it, I sign this waiver voluntarily as my own free act and deed, for full, adequate, and complete consideration, with the intention that it will be construed in accordance with English law, and fully intending it to be of binding effect upon me.

Dear Mr/Mrs

**Re: Refuse and Recycling Collections from \*Road Name\***  
**S. 46 Environmental Protection Act 1990**

Under S.46 of the Environmental Protection Act the Council is entitled to specify where refuse containers must be located in order to facilitate their collection. The Council's normal practice is to carry out refuse and recycling collections from the property boundary for households located on adopted roads, this is described as where a front path or drive meets the public road or pavement and the Highways Authority is responsible for the maintenance of these roads.

In the case of private roads such as **\*Road Name\***, the Council's normal practice is to specify a location adjacent to the public highway where householders are required to place their refuse and recycling containers for collection, residents of private roads are responsible for the maintenance of those roads and therefore the Council will not normally enter these.

Currently the Council collects refuse, recycling, food and garden waste from all properties by accessing **\*Road Name\***

**OR (delete as appropriate)**

Historically the Council has entered **\*road name\*** to collect waste and recycling and would like to do so but requires the attached indemnity to be signed to continue to do so by each property owner responsible for paying for the maintenance for **\*road name\*** - or an agent authorised to act on their behalf.

Alternatively the Council can specify **(as per S.46 EPA 1990 (as amended))** an alternative collection point for the properties of **\*Road Name\***, and responsibility for bringing the containers to that point will rest with the residents.

Where a road located on a site still in the construction phase, Waste Services may require a site visit to carry out a risk assessment. This will ensure the continued safety of our crews and the public.

Please note, only the **developer and their successor in title** can sign the developer indemnity agreement. By agreeing to sign the developer indemnity agreement you are confirming that you hereby release the Council and its contractors from any and all liability, claims, demands, and actions arising in connection with or related to such damage as a direct result of the road being private and/or unadopted.

If you wish to continue ECDC and its agents' collection of waste from **\*road name\*** please sign and return the waiver overleaf and return this as soon as possible. Please retain a copy for your records and do not hesitate to contact me if you require any further information. **(delete as required)**

Yours faithfully,

Darren Hughes,  
Development Officer, Waste  
East Cambridgeshire District Council

Appendix B2

**Damage Liability Waiver/Indemnity agreement**

I confirm that I the developer of , am the person responsible for the maintenance of said road.

I hereby request the Council carry out collections of refuse, recycling, food and garden waste (“Waste”) from **\*Road Name\***, using a 26 tonne vehicle where and when possible, or any similarly sized vehicle belonging to or operated by contractors on the Council’s behalf. I understand that collection vehicles require access to **\*Road Name\*** to collect Waste from the domestic properties at **\*Road Name\***.

I confirm that access will be freely given to the 26 tonne vehicle (or similar) and I will not make any claims or institute any proceedings against the Council or its contractors for any damage caused, including but not limited to, damage caused to any pavements, kerbs and the road itself, by the 26 tonne vehicle in the normal course of collecting Waste. I hereby release the Council and its contractors from any and all liability, claims, demands, and actions arising in connection with or related to such damage.

In the event that **\*Road Name\*** is not adopted by Cambridgeshire County Council, I agree to continue to take responsibility for the road until such time that I inform East Cambridgeshire District Council of any other arrangements.

I acknowledge and represent that, having read and understood this waiver, and being fully competent to sign it, I sign this waiver voluntarily as my own free act and deed, for full, adequate, and complete consideration, with the intention that it will be construed in accordance with English law, and fully intending it to be of binding effect upon me.

ADDRESS

Name of road and location (to be Inserted by DH)

Dear Sir or Madam,

**Safe waste collections from private or unadopted roads**

The Council operates a collection point for waste at the edge of a property where it meets the public highway. This includes collections from remote properties accessed from private or unadopted roads and properties located on roads that only allow restricted vehicle access. For new developments where there is restricted access, or if the road is unadopted the Council will collect refuse from a collection point on the public highway, requiring residents to move their bins to that point of collection. This change ensures the on-going safety of our residents and the collection crews.

The Council is surveying all current collection arrangements from properties located on unadopted, private and restricted access roads. This is necessary because there have been instances where the Waste Service has caused damage to its vehicles incurring repair costs whilst collecting from these roads.

These roads are not normally built to highway standards; often having soft verges and overhanging trees. In addition, some roads must be reversed down for considerable distances, sometimes in the dark, with no safe place for an employee to operate as a reversing assistant to see the vehicle safely back.

The survey will be against the following conditions:

- a) **Road surface:** Roads must be of sound construction with a suitable hard surface, free of large/deep potholes and obstructions which could cause damage or injury to vehicles or persons. The vehicle should be able to travel safely at 15mph (25 kph) along the road.
- b) **Road width:** The minimum road width is no less than 3.5 metres with no obstruction from trees, shrubs etc. which could cause damage to the vehicle.
- c) **Road length:** If there are several properties located down a road, then there should be passing places, suitable for a refuse collection vehicle (hard surface, not a verge).
- d) **Height clearance:** The minimum clearance should be no less than 5.5 metres with no obstruction from overhanging branches, cables etc. which could cause damage to the collection vehicle.
- e) **Turning area:** Where a through road does not exist, a suitable turning area must be available to allow the vehicle to turn. The turning area should have a hard surface which is of a sufficient size to allow an 11.5-metre-long vehicle to turn with no more than three manoeuvres and have sufficient space either side of the vehicles to safely turn in the dark. Collection vehicles will not reverse onto a public highway to turn around.
- f) **Access:** There must be access for the collection vehicle. Any gates must be left unlocked and open as our crews will not open and close these when undertaking collections.

## Appendix C1

If these conditions meet the standards, then collections will continue to be made from the curtilage of the properties on the road. However, if any of the conditions aren't met then the Waste Service will actively engage with the property owner(s) to agree remedial works required to make the road safe for collections. For example this may include cutting back vegetation or making good the road surface etc, in addition to signing the Council's indemnity agreement.

If such remedial measures cannot be agreed with residents then the Council reserves the right to make collections from a collection point on the public highway. However, this will not be done until there has been full consultation with the residents affected. The starting point of this consultation will be to advise property owners of the findings of the survey of their road and recommend measures to be taken. An officer will meet the owners or residents on site to agree and confirm the measures that will be taken or if the requisite measures cannot be agreed the new collection point for waste collections will be confirmed.

We will contact you again to share with you the results of the survey.

If you have any queries please contact Darren Hughes (Development Officer, Waste–ECDC) on (DH please insert a phone number) or by e-mail ([Darren.Hughes@eastcambs.gov.uk](mailto:Darren.Hughes@eastcambs.gov.uk)).

Yours sincerely

Darren Hughes  
Development Officer, Waste

**Letter 2: Notification to Affected Residents of Safety Survey Findings**

Name of road and location (to be Inserted by DH)

Dear Sir or Madam,

**Safe waste collections from private or unadopted roads – safety survey findings**

Following on from the letter to you dated (DH to insert) the safety survey has been completed and attached is the record of the survey. (DH to attach the survey proforma for the road ensuring it is legible)

(DH to select from the following options for the content of the letter)

The survey has confirmed no remedial measures are required to your road therefore the current waste collection arrangements can continue to be safely made from your property.

Or

The survey has confirmed that the following remedial works are required for collections to continue from the curtilage of your property: (DH to delete the measures not required by the survey)

- a) **Road surface:** The road surface is not of a sound construction suitable for refuse collection vehicles therefore the Council requires the road owner(s) to provide the Council with an indemnity agreement in respect to damage to road caused by collections being carried and to pay the Council for damage caused to collection vehicles or for injuries suffered by collection staff when carrying out collections.
- b) **Road surface:** Repairs are required to your road to remove large/deep potholes and obstructions located by the survey which could cause damage or injury to vehicles or persons, allowing a collection vehicle to be able to travel safely at 15mph (25 kph) along your road
- c) **Road width:** To cut back or remove obstruction from trees, shrubs etc. which could cause damage to a collection vehicle to provide a minimum road width is no less than 3.5 metres.
- d) **Height clearance:** To cut back or remove obstruction from overhanging branches, cables etc. which could cause damage to a collection vehicle to provide a minimum clearance should be no less than 5.5 metres.
- e) **Access:** Access gates must be left unlocked and open on collection days to allow collections to be readily made.

Or

The survey has confirmed that for the following reason(s) it is not safe to continue to make collections from the curtilage of your property: (DH to delete the condition(s) not relevant)

- 1) **Road length:** There are no passing places, suitable for a refuse collection vehicle (hard surface, not a verge) along your road to allow the safe passage of a collection vehicle along your road without potential conflict with other vehicles.

## Appendix C2

- 2) **Turning area:** Your road is not a through road and there are no suitable turning area(s) to allow the vehicle to turn; requiring a collection vehicle to reverse onto a public highway to turn around.

It is necessary to agree with you a collection point on the public highway, requiring you to move your bins to this point of collection.

I will arrange to meet with you to discuss the contents of this letter and to agree a way forward to include remedial works being undertaken or alternative collection arrangements being agreed within the next two weeks.

Or (DH to delete the paragraph that is not relevant)

I will agree to meet with you to discuss and agree alternative collection arrangements because it will not be safe for residents and collection crews to continue with the current collection arrangements as evidenced by the survey findings. Therefore please contact me to arrange a convenient time to meet within the next two weeks.

If you have any immediate queries regarding this letter and to arrange a site meeting to finalise future collection arrangements in the context of this letter please contact Darren Hughes (Development Officer, Waste – ECDC) on (DH please insert a phone number) or by e-mail ([Darren.Hughes@eastcambs.gov.uk](mailto:Darren.Hughes@eastcambs.gov.uk)).

Yours sincerely

Darren Hughes  
Development Officer, Waste

### Letter 3: Confirmation of Future Service Delivery Arrangements

Name of road and location (to be Inserted by DH)

Dear Sir or Madam,

#### Safe waste collections from unadopted, private or restricted Roads – Future Service Delivery Arrangements

Following on from the consultation conducted, we are sending you this letter to confirm the agreed future service delivery arrangements for your property to ensure your safety and the safety of the waste collection staff.

*(DH to select from the following options for the content of the letter)*

The agreed remedial works detailed below must be completed by *(DH to insert a date 5 weeks from when letter dated)* and then collections will continue to be made from the curtilage of your property. *(DH to delete the measures not required by the survey N.B- below are only examples for demonstration purposes and will be written bespoke for each road affected)*

- a) **Road surface:** The road surface is not of a sound construction suitable for refuse collection vehicles therefore the Council requires the road owner(s) to provide the Council with an indemnity agreement in respect to damage to the road caused by collections being carried and to pay the Council for damage caused to collection vehicles or for injuries suffered by collection staff when carrying out collections.
- b) **Road surface:** Repairs are required to your road to remove large/deep potholes and obstructions located by the survey which could cause damage or injury to vehicles or persons, allowing a collection vehicle to be able to travel safely at 15mph (25 kph) along your road.
- c) **Road width:** To cut back or remove obstruction from trees, shrubs etc. which could cause damage to a collection vehicle to provide a minimum road width is no less than 3.5 metres.
- d) **Height clearance:** To cut back or remove obstruction from overhanging branches, cables etc. which could cause damage to a collection vehicle to provide a minimum clearance should be no less than 5.5 metres.
- e) **Access:** Access gates must be left unlocked and open on collection days to allow collections to be readily made.

Should the remedial works not be completed by the agreed date (and during this interim period) then the Council will for safety reasons be required to implement new collection arrangements based on a collection point on the public highway, requiring you to move your bins to the previously agreed collection point during the site visit. Therefore for safety reasons collection arrangements will now be from the collection point on the public highway agreed with you, requiring you to move your bins to this point of collection. These new collection arrangements will come into effect from *(DH to insert the date)*.

If you have any immediate queries regarding this letter please contact Darren Hughes (Development Officer, Waste – ECDC) on *(DH please insert a phone number)* or by e-mail ([Darren.Hughes@eastcamb.gov.uk](mailto:Darren.Hughes@eastcamb.gov.uk)).

Appendix C3

Yours sincerely

Darren Hughes  
Development Officer, Waste

**EQUALITY IMPACT ASSESSMENT (EIA) FORM**

<b>Name of Policy:</b>	Introduction of the policy for Waste collections from private or unadopted roads and assisted waste collections
<b>Lead Officer (responsible for assessment):</b>	Hetty Thornton
<b>Department:</b>	Waste
<b>Others Involved in the Assessment (i.e. peer review, external challenge):</b>	
<b>Date EIA Completed:</b>	04/07/19

**What is an Equality Impact Assessment (EIA)?**

As part of any effective policy development process, it is important to consider any potential risks to those who will be affected by the policy's aims or by its implementation. The Equality Impact Assessment (EIA) process helps us to assess the implications of our decisions on the whole community, to eliminate discrimination, tackle inequality, develop a better understanding of the community we serve, target resources efficiently, and adhere to the transparency and accountability element of the Public Sector Equality Duty.

**The word 'policy', in this context, includes the different things that the Council does. It includes any policy, procedure or practice - both in employment and service delivery. It also includes proposals for restructuring, redundancies and changes to service provision.**

- (a) **What is the policy trying to achieve?** i.e. What is the aim/purpose of the policy? Is it affected by external drivers for change? What outcomes do we want to achieve from the policy? How will the policy be put into practice?

The Council currently operates a collection point for waste at the edge of a property where it meets the public highway. When the wheeled bin service was introduced, collections continued from remote properties accessed from private or unadopted roads. Collections from such roads are a health and safety risk to the public and the waste crews.

In addition, there will be maintenance costs for waste collection vehicles which collect from rounds which have private or unadopted roads. It is impossible to estimate the financial cost attributed to these as Veolia didn't routinely record this information, however ECSS are now actively measuring the financial impact.

Private and unadopted roads are not normally built to highways standards: often with soft verges and overhanging trees. Several roads must be reversed down for considerable distances, sometimes in the dark with no safe turning spaces.

The proposed changes will require private or unadopted roads to be made up to a required standard (as detailed within the "project plan: Introduction of the policy for waste collections from private and unadopted roads) and an indemnity agreement must be signed by all house owners located on such roads.

Without a signed indemnity in place covering all associated properties located on a private or unadopted road, all waste must be presented for collection at the public highway.

In instances where road conditions are substandard enough not to safely enable the waste freighters to access the road, then the owner/s on the road will be required to take their waste to the collection point on the public highway.

Waste Services will ensure that all affected residents will be engaged with at the earliest opportunity to minimise any negative impacts from the changes.

Many houses already located on private or un-adopted roads already present their waste at the public highway so the proposed changes won't affect these residents.

We will also review the assisted waste collections. The review will follow on from the work conducted last year by ECDC where residents were contacted to determine whether they still required an assisted collection. The review will require all residents on the assisted collection database to provide medical evidence to show that they are unable to put their bins out for collection. This is in-line with our existing 2014 Waste Collections Policy statement on assisted collections whereby evidence can be collected from the Council.

Where a resident is unable to provide medical evidence but would still like an assisted collection service ECSS will arrange a 1-2-1 meeting at which point an assessment will be conducted.

The Council and ECSS will engage with all affected home owners to ensure that they are kept up to date.

**(b) Who are its main beneficiaries? i.e. who will be affected by the policy?**

- Owners of properties located on private or unadopted roads
- Vulnerable residents (mitigations to reduce impact of changes will be put in place e.g. collections made from smaller vehicles etc)
- The waste collection crews
- ECDC as the asset owner
- ECSS as the employer

**(c) Is the EIA informed by any information or background data (quantitative or qualitative)? i.e. consultations, complaints, applications received, allocations/take-up, satisfaction rates, performance indicators, access audits, census data, benchmarking, workforce profile etc.**

- Waste collection crews have been raising concerns about the conditions on some private or unadopted roads being healthy and safety risks including having soft verges, no turning circles, crews having to reverse vehicles in narrow roads for considerable distances and often in the dark etc
- The increases in maintenance costs from collection vehicles which collect from private/unadopted roads shows the financial impact of continuing to collect waste from these roadways
- The 2014 “Waste Collection Policy” states the following “*Assisted collections are available where householders, due to long-term infirmity, illness or disability are unable to move their waste to the normal collection point. The service is only provided where no member of the household is able to move the waste*” and “*checks may be carried out by the Council from time to time on resident’s suitability for the assisted collection and evidence requested from the householder*”.

**(d) Does this policy have the potential to cause a positive or negative impact on different groups in the community, on the grounds of any of the protected characteristics? (please tick all that apply)**

<b>Ethnicity</b>	<input type="checkbox"/>	<b>Age</b>	<input checked="" type="checkbox"/>
<b>Gender</b>	<input type="checkbox"/>	<b>Religion and Belief</b>	<input type="checkbox"/>
<b>Disability</b>	<input checked="" type="checkbox"/>	<b>Sexual Orientation</b>	<input type="checkbox"/>
<b>Gender Reassignment</b>	<input type="checkbox"/>	<b>Marriage &amp; Civil Partnership</b>	<input type="checkbox"/>
<b>Pregnancy &amp; Maternity</b>	<input type="checkbox"/>	<b>Caring Responsibilities</b>	<input type="checkbox"/>

**Please explain any impact identified:** i.e. What do you already know about equality impact or need? Is there any evidence that there is a higher or lower take-up by particular groups? Have there been any demographic changes or trends locally? Are there any barriers to accessing the policy or service?

Residents who live in houses located on private or un-adopted who are disabled or unable to present their waste to the public highway have the opportunity to register for an assisted collection. Therefore any residents who can show evidence that they meet the criteria for an assisted collection will still be able to have their waste collected from their property if all other necessary criteria is met.

<b>(e) Does the policy have a differential impact on different groups?</b>	<b>NO</b>
<b>(f) Is the impact adverse (i.e. less favourable)?</b>	<b>NO</b>
<b>(g) Does it have the potential to disadvantage or discriminate unfairly against any of the groups in a way that is unlawful?</b>	<b>NO</b>

**(h) How have you engaged stakeholders in gathering evidence or testing the policy proposals?** Who was involved, how and when where they engaged? Does the evidence show potential for differential impact? How will you mitigate any negative impacts? Where there is the potential for an adverse impact that cannot be addressed immediately, these should be highlighted in your recommendations and objectives at the end of the EIA.

ECSS has undertaken a review of each private and un-adopted road to ascertain the quality of the road against standards required by the Highways Agency.  
 If the proposal is agreed then the Council will engage with affected homeowners as per the project timescales.

\* The Consultation Register is available to assist staff in consulting with the Council’s stakeholders.

**(i) Summarise the findings of your research and/or consultation (please use a separate sheet if necessary).**

N/A

**(j) What are the risks associated with the policy in relation to differential impact and unmet needs/requirements?** i.e. reputation, financial, breach of legislation, service exclusion, lack of resources, lack of cooperation, insufficient budget etc.

If the proposed policy change isn’t agreed then there will be the following;

- A continued health and safety risk to residents
- A continued health and safety risk to crews
- On-going financial impacts on ECSS due to additional costs of excessive, avoidable wear and tear on vehicles going down poor standard private and un-adopted roads
- ECSS’ and ECDC costs will increase if the policy is not adopted due to the potential for additional insurance claims and damage to the vehicles (which are owned by ECDC).

**(k) Use the information gathered in the earlier stages of your EIA to make a judgement on whether there is the potential for the policy to result in unlawful discrimination or a less favourable impact on any group in the community, and what changes (if any) need to be made to the policy.**

Option 1:	<b>No major change</b> - the evidence shows that the policy is robust and no potential for discrimination.	√
Option 2:	<b>Adjust the policy</b> - to remove barriers or to better promote equality.	
Option 3:	<b>Continue the policy</b> - despite potential for adverse impact or missed opportunity to promote equality, provided you have satisfied yourself that it does not unlawfully discriminate.	
Option 4:	<b>Stop and remove the policy</b> – if the policy shows adverse effects that cannot be justified.	

**(l) Where you have identified the potential for adverse impact, what action can be taken to remove or mitigate against the potential for the policy to unlawfully discriminate or impact less favourably on one or more communities in a way that cannot be justified?**  
 Include key activities that are likely to have the greatest impact (max. 6). Identified actions should be specified in detail for the first year but there may be further longer term actions which need to be considered. To ensure that your actions are more than just a list of good intentions, include for each: the person responsible for its completion, a timescale for completion, any cost implications and how these will be addressed. It is essential that you incorporate these actions into your service plans.

This completed EIA will need to be countersigned by your Head of Service. **Please forward completed and signed forms to the Principal HR Officer.**

All completed EIAs will need to scrutinised and verified by the Council’s Equal Opportunities Working Group (EOWG) and published on the Council’s Intranet to demonstrate to local people that the Council

Appendix D  
East Cambridgeshire District Council

---

is actively engaged in tackling potential discrimination and improving its practices in relation to equalities. Please be aware that may be asked to attend a half-an-hour session to summarise the findings of the EIA to the Scrutiny and Verification panel.

Private and Confidential

This is NOT a circular and contains important information

Dear Sir/Madam,

Re: Assisted waste collections renewals

The Council operates an assisted waste collection to residents who are unable to take out their wheeled bins and sacks to the kerbside due to infirmity or disability, and have no-one else residing in the property who can take out the waste on their behalf.

In order for us to continue to provide the assisted collection service to your address I would be grateful if you would complete the attached form and return it in the pre-paid envelope within 3 weeks from the date of this letter, along with either a doctor's note or relevant evidence showing the nature of your infirmity or disability so we can update our information. We will return all original documents but may keep a copy for our files.

Please note that we will not accept assisted collection requests without the relevant medical information. Should you be unable to provide the requested documents then please contact me and I will arrange for an officer to organise a home visit to discuss collection arrangements.

Should there be an able person living with you or a regular visitor to the property who is able to undertake this task on your behalf you may not require this service. If this is the case, please contact me so I am able to update your records.

If you have any questions or enquiries about the assisted waste service or the service in general please do let us know.

Yours faithfully,

Darren Hughes  
Development Officer  
East Cambridgeshire District Council

## Appendix F- Photos showing examples of private and unadopted roads within East Cambs

### 1) Upherd's lane. Ely.

The image clearly shows the extensive deep potholes which are located across the road. Although the road is wide, the waste trucks are unable to navigate away from the potholes due to the vast number. This causes a health and safety issue due to the adverse camber of the road and will cause significant wear and tear or damage to the wheels or vehicle generally.

### 2) Millfield road. Wilburton

The road is very narrow (as demonstrated by the car), with limited passing places. There are overhanging trees, potholes, no turning circles and in places adverse cambers to the road.

3) 1-3 Prickwillow road. Ely.

The road is only as wide as one cars' length, with no turning circles and very few passing places. There are soft verges on both sides and the mature trees are overhanging the road.

## Appendix G- List of each property on a private or unadopted road in East Cambs

**TITLE: Quarter 1, 2019 Performance Report for the Waste and Street Cleansing Services**

To: Operational Services Committee

Date: 9<sup>th</sup> September 2019

Author: James Khan, Head of Street Scene

[U58]

---

1.0 ISSUE

1.1 To provide the Committee with the Quarter 1 (April to June 2019) performance report for the delivery of the waste and street cleansing services by East Cambs Street Scene Ltd (ECSS).

2.0 RECOMMENDATION(S)

2.1 Councillors are requested to note the performance of service delivery for the first quarter.

3.0 BACKGROUND

3.1 After completing a successful first year of delivering the waste collection and street cleansing services on behalf of ECDC, ECSS is set to further its improvements throughout 2019/20.

3.2 From April 1<sup>st</sup> 2018 many improvements were introduced in order to increase performance across the services. For the next year ECSS is set to finesse these improvements, growing and stabilising performance figures as well as forming efficiencies in order to support services appropriately.

3.3 The first quarter has seen a new face. Matthew Ings has joined our team as Street Scene Manager and will be focusing on improving all our operational areas, keeping performance high, and ensuring we run a tight ship.

3.4 The first quarter has seen an increased focus around preliminary work to increase trade waste collections throughout the district. Not only do we want to provide a high level service to the residents of the district, we also want to provide a commercially focused and competitive service to the business that operate within it, assisting in creating a thriving local economy.

3.5 A further review of the street cleansing schedules has taken place. This has included improved working patterns for both of the large 18tonne road sweepers that are responsible for cleaning the major trunk roads in and out of the district. This will ensue that all visitors will be greeted with a pleasant, clear drive in and leave them wanting to return again soon!

3.6 In addition to the improvements for the road sweeper's schedules, we have also been trialling different types of smaller road sweeper this quarter. This is with the view to ensuring we have the right tools for the job and can continually deliver high levels of performance in all areas of the district.

- 3.7 A really exciting project the waste team has been working on in the first quarter is a new bespoke education and promotion vehicle. The waste team have been working tirelessly on designs, colour palettes, educational quotes, and facts and figures to ensure residents of all ages are educated on waste and recycling. I know Michael is very keen to show it off.
- 3.8 July saw the return of Aqua Fest along with our waste officers assisting members of the public with their questions on waste and recycling. We were thrilled to have Fred White, who was the creative mind behind the amazing underwater piece created with the pupils at the Lantern School, there with us, again working with children to be creative with waste.

- 3.9 The first quarter saw ECSS take delivery of the black sack in preparation for the annual roll out to the residents of the district. In support of the Council's "Purge on Plastics" additional thought has gone into the material used and what impact the bags have on the environment. This year's bags will be made from 100% post-consumer recycled plastic! These will be delivered to all residents during the next quarter.
- 3.10 In areas where performance figures are constantly achieving high levels of completion and, in order to continue to provide the best possible service to all of the residents the focus in the next quarter will shift to reducing the total number of service requests residents report, therefore underpinning the overall improvement of the service being delivered.
- 3.11 The end of the quarter saw all Full Time Employee (FTE) positions filled. This is the first time since April 2018 and was due to a high turnover of staff. These positions have been filled with agency employees who have continuously worked for the

company for a minimum of 14 weeks, evidencing their commitment to delivering high levels service delivery.

#### 4. PERFORMANCE UPDATE

4.1 Detailed in Table 1 is an update on ECSS’s performance in relation to the management and resolution of service requests against a performance target of 80% completion set within the service level agreement (SLA).

Table 1: Update on ECSS Performance in Relation to the Management and Resolution of Service Requests within the Time Specified Resolution (as a %)

Service	Apr 2019			May			Jun		
	Month (%)	Month (%)	Trend	Month (%)	Cum (%)	Trend	Month (%)	Cum (%)	Trend
Refuse	100			100	100	▲	96	99	▼
Recycling	97			99	98	▲	96	97	▼
Green	95			99	97	▲	98	98	▲
Bulk & Clinical	93			93	93	-	94	93	-
Street Cleansing	64			65	64	-	51	60	▼

**Note:** The RAG rating relates to the month on month cumulative performance trend.  
 Green indicating achievement of the performance target set.  
 Yellow indicating performance is within 15% of target set.  
 Red indicating performance is below 15% of target set.

4.2 The first quarter has continued to evidence high levels of performance against the 80% performance target set, with refuse at 100% for the first two thirds of the quarter.

4.3 Street cleansing continues to be an area for improvement and is yet to hit the target of 80%. Ongoing focus is being dedicated to the street cleansing service to bring it in line with all the other over achieving services. The rescheduling of rounds, twinned with dedicated monitoring from officers, will achieve the target set. Visually, the district is clean, presentable and welcoming, with only pockets of littering issues.

4.4 Once 100% performance has been achieved, as shown in April and June, the difficulty then is sustaining this level of perfect performance. Table 1 shows a negative trend in monthly and cumulative performance for refuse and recycling due to a monthly performance drop of only 4% and a cumulative decline of only 1%.

4.5 To ensure that we can accurately monitor performance in the future, new and improved key performance indicators (KPIs) will be implemented to capture all areas of service delivery and its performance. These will be implemented in the current financial year.

4.6 As a comparison, below are the performance figures for the first quarter of 2018 which underpins the improvement made throughout the first year.

Service	Apr	May			Jun		
	Month (%)	Month (%)	Cum (%)	Trend	Month (%)	Cum (%)	Trend
Refuse	46	63	54	▲	68	58	▲
Recycling	53	44	48	▼	40	45	▼
Green	49	61	57	▲	50	55	▼
Bulk & Clinical	79	74	76	▼	74	75	▼

Street Cleansing	17	13	15	▼	16	15	▼
---------------------	----	----	----	---	----	----	---

4.3 Appendix 1 contains a summary of ECSS's performance against the set standards and the annual stretch target for resolving service requests which is a fundamental performance measure for the efficiency and customer focus of the services provided.

4.4 **Sickness Absence:**

Overall sickness absence within the first quarter continues to improve. As part of the annual appraisals implemented in October 2018, an absence related target has been introduced with the first appraisals to be completed in October 2019.

The first quarter saw the Sickness Absence policy and procedure being reviewed and submitted to all employees and Unions for consultation.

Implementation of the reviewed policy and procedure will ensure all sickness absence cases are managed appropriately, ultimately ensuring adequate levels of staff are at work in order to deliver high levels of service delivery.

Outlined in Table 2 below are the targets for sickness absence set for the waste and street cleansing services. Targets that have been set for the different categories of staff and these reflect that the majority of staff work outside in all weathers carrying out physically arduous tasks.

These targets reflect similar targets set in other high performing waste and street cleansing service delivery organisations.

**Table 2: Sickness Absence Targets Set for the Waste and Street Cleansing Services**

<b>Staffing Category</b>	<b>Number of Staff</b>	<b>Annual Sickness Target (Hours)</b>	<b>Annual Sickness Target (Working Days)</b>	<b>Monthly Sickness Absence Target (Hours)</b>	<b>Monthly Sickness Absence Target (Working Days)</b>
HGV Drivers (Waste)	16	672	96	56	8
Driver/Operative (Waste)	3	126	18	10.5	1.5
Operatives (Waste)	29	1,218	174	101.5	14.5
HGV Drivers (Street Cleansing)	3	126	18	10.5	1.5
Driver/Operatives (Street Cleansing)	3	126	18	10.5	1.5
Operatives (Street Cleansing)	7	294	42	24.5	3.5
Ops Management & Admin	5	210	30	17.5	2.5
Waste Management Team	3	126	18	10.5	1.5

4.5 The sickness report contained in Table 3 below highlights the first quarters overall sickness rates against the targets set, highlighted above. One day sickness absence is equivalent to 7 hours.

This quarter saw the sickness absence policy review and consultation begin which is set to conclude within the second quarter.

The review of the policy has set out to bring in new sickness absence triggers which would ensure sickness is managed efficiently and effectively and in line with the targets set out in table 2.

Sickness absence remains high but is greatly affected by the following cases.

- A long term sickness case of one of the assistant managers, covering April and May, is due to the manager having to undergo surgery and has caused the Ops Mgmt. and Admin Staff to exceed the target.
- A number of long term sickness cases has resulted in the target not being achieved for the HGV drivers (waste). One of these cases is due to a driver recovering from a motorbike accident and equates to over half of the recorded hours.
- Short term sickness absence continues to plague the operatives (waste) resulting in the target not being achieved. Due to the number of staff in this category, the probability of sickness is greater than of other categories. It is also heavily effected due to operatives walking long distances and working in all weather conditions on a daily basis.
- April and May's figure for Driver/Operatives (SC) is due to one operative's long term sickness and is due to an existing medical condition.

**Table 3: Monthly Sickness Absence Report for the Waste and Street Scene Services – 2019/20**

Staff Category	HGV Drivers (Waste)	Driver/ Operatives (Waste)	Operatives (Waste)	HGV Drivers (SC)	Driver/ Operatives (SC)	Operatives (SC)	Ops Mgmt. & Admin Staff	Waste Mgmt. Team
<b>Number of Staff</b>	<b>16</b>	<b>3</b>	<b>29</b>	<b>3</b>	<b>3</b>	<b>7</b>	<b>5</b>	<b>3</b>
April	Target = 56 Hours Actual =252 Hours	Target = 10.5 Hours Actual = 0 Hours	Target = 101.5 Hours Actual = 175 Hours	Target = 10.5 Hours Actual = 0 Hours	Target = 10.5 Hours Actual =77 Hours	Target = 24.5 Hours Actual = 0 Hours	Target = 17.5 Hours Actual =357 Hours	Target = 10.5 Hours Actual =0 Hours
May	Target = 56 Hours Actual =315 Hours	Target = 10.5 Hours Actual =0 Hours	Target = 101.5 Hours Actual = 266 Hours	Target = 10.5 Hours Actual =35 Hours	Target = 10.5 Hours Actual =126 Hours	Target = 24.5 Hours Actual =0 Hours	Target = 17.5 Hours Actual =63 Hours	Target = 10.5 Hours Actual =0 Hours
June	Target = 56 Hours Actual 105= Hours	Target = 10.5 Hours Actual 168= Hours	Target = 101.5 Hours Actual = 0 Hours	Target = 10.5 Hours Actual = 0 Hours	Target = 10.5 Hours Actual = 0 Hours	Target = 24.5 Hours Actual = 0 Hours	Target = 17.5 Hours Actual 0= Hours	Target = 10.5 Hours Actual = 0 Hours

<p>Cumulative Performance</p> <ul style="list-style-type: none"> <li>• Cumulative Target = number of months x the monthly target;</li> <li>• Cumulative Actual = the totalling of each months actual.</li> </ul>	<p>Cumulative Target = 168 Hours</p> <p>Cumulative Actual = 672 Hours</p>	<p>Cumulative Target = 31.5 Hours</p> <p>Cumulative Actual = 168 Hours</p>	<p>Cumulative Target = 304.5 Hours</p> <p>Cumulative Actual = 441 Hours</p>	<p>Cumulative Target = 31.5 Hours</p> <p>Cumulative Actual = 35 Hours</p>	<p>Cumulative Target = 31.5 Hours</p> <p>Cumulative Actual = 203 Hours</p>	<p>Cumulative Target = 73.5 Hours</p> <p>Cumulative Actual = 0 Hours</p>	<p>Cumulative Target = 52.5 Hours</p> <p>Cumulative Actual = 420 Hours</p>	<p>Cumulative Target = 31.5 Hours</p> <p>Cumulative Actual = 0 Hours</p>
<p><b>Trend (RAG Rating):</b></p> <ul style="list-style-type: none"> <li>• <b>Green rating = Actual is less the Cumulative Target;</b></li> <li>• <b>Amber rating = Actual is up to 12 hours greater than the Cumulative Target;</b></li> <li>• <b>Red rating = Actual is in excess of 18 hours of the Cumulative Target.</b></li> </ul>								

4.6 Table 4 is a summary of the total tonnage of waste collected and the recycling rate for the first quarter of 2019/20. The recycling target for this year is 58%.

Month	Tonnage All Waste Collected	Tonnage All Waste Recycled (Recyclates + Garden Waste)	% of Waste Recycled	Trend (Target = 57% of Waste being Recycled) - RAG
April	2,856.17	1,685.85	59.02%	
May	2,964.86	1,845.22	62.24%	
June	2,894.69	1,778.53	61.44%	
July				
August				
September				
October				
November				
December				
January				
February				
March				
<b>Total</b>	<b>8,716</b>	<b>5,310</b>	<b>60.90%</b>	

4.7 With the procurement of a promotion and education vehicle the waste team are set to share the waste message far and wide. Key messages will cover contamination and how it effects the district recycling rate and well as providing education to local schools to ensure the next generation are fully aware of the effect of waste on the environment.

## 5.0 CONCLUSIONS

5.1 The first quarter has seen continued high levels of performance in the majority of service delivery areas, with only the street cleansing service under achieving. The work carried on this service over the past few months will see it achieve the same levels of performance as other services have already achieved.

5.2 The past months has seen officers dedicating time to developing the waste services educational programme. This has included working in partnerships with local schools and drafting lesson plans for pupils. This is key to changing the behaviour of our residents and increasing our recycling rates.

5.3 Sickness absence remains a concern. However, the review and implementation of the new triggers within the reviewed sickness absence policy will see this being managed efficiently, with the intention to reduce the sickness absence rates.

5.4 Waste and recycling continues to be “on trend” and ECSS will cease this opportunity to promote the industry the impact it has on the environment and the residents of the district. It also affords us the chance to work with external bodies to create positive campaigns that will help change negative behaviour towards the industry.

6.0 FINANCIAL IMPLICATIONS/EQUALITY IMPACT ASSESSMENT

6.1 The waste and street cleansing services are being delivered within the contract value.

7.0 APPENDICES

**Appendix 1:** Summary of ECSS's Performance against the Annual Stretch Target for Resolving Service Requests: April to June 2019 (Service Requests through the Call Centre and Website Closed off (80%) within the Specified Response Time).

**Appendix 1: Summary of ECSS's Performance against the Target for Resolving Service Requests: April – June 2019 (Service Requests through the Call Centre and Website Closed off (80%) within the Service Level Agreement (SLA)).**

Performance Summary – April to June 2019	Monthly			Cumulative			Trend
	Service Requests Due to be Closed	Service Requests Closed and Completed within the SLA	Performance against the Target (80%)	Service Requests Received	Service Requests Closed and Completed within the SLA	Performance against the Target (80%)	Positive or Negative Cumulative Trend against previous month
April Total Service Requests for the Domestic Collection Service.	98	98	100%	98	98	100%	-
May Total Service Requests for the Domestic Collection Service.	76	76	100%	174	174	100%	-

**TITLE: BUDGET MONITORING REPORT**

Committee: Operational Services Committee

Date: 9<sup>th</sup> September 2019

Author: Finance Manager

[U59]

---

1. ISSUE

1.1 This report provides Members with details of the financial position for services under the Operational Services Committee.

2. RECOMMENDATION (S)

2.1 Members are requested to note that this Committee is currently projected to end the year with an overspend, compared to its planned budget, of £50,000.

2.2 Members are further requested to note that the Committee has a projected capital programme outturn of £2,210,190, which is in line with its revised budget.

3. BACKGROUND/OPTIONS

3.1 Under Financial Regulations each policy committee is required to consider projections of financial performance against both its revenue and capital budget on a quarterly basis.

3.2 This is the first quarter report for the 2019/20 financial year and details actual expenditure incurred as at 30<sup>th</sup> June 2019 and current projections as to the year-end position.

3.3 The revenue budget for each service that falls under the stewardship of this Committee has been reviewed with appendix 1 detailing the current variance and forecast outturn for each service line.

3.4 The significant variances of actual spend compared to profiled budgeted spend at the end of June, where no variance is forecast for yearend, are detailed below:

<b>Service</b>	<b>Variance £</b>	<b>Explanation</b>
IT	(26,020)	This is due to delays in staff recruitment, and the implementation of IT Upgrades.

Refuse Collection and Recycling	31,885 and 94,748	These relate to payments to staff seconded to ECSS and insurance costs. All such costs are charged to ECSS on a quarterly basis.
Community Infrastructure Levy (CIL)	(939,438)	CIL transactions are treated as a revenue income or expense, but any balance on the account at yearend is transferred to reserve.
Community Safety	(21,424)	An accrual at the end of 2018/19 remains unpaid.
Marketing & Grants	(48,659)	Monies rolled forward have not been allocated yet, this will be done in the next quarter.

- 3.5 The net revenue expenditure for this Committee at yearend is forecast to be £5,566,770. This reflects a forecast £50,000 overspend when compared to the approved budget. An explanation for this forecast yearend variance is detailed in the table below:

Service	Variance £	Explanation
Planning	50,000	Due to the volume and type of some of the applications being received, two agency workers have been employed to ensure the level of customer service continues and the target deadlines for dealing with applications and any subsequent appeals are being achieved.

- 3.6 The revised capital budget for this Committee stands at £2,210,190; including £538,543 of slippage brought forward from 2018/19 and approved additions of £15,578.
- 3.7 When building the budget for 2019/20 the amount of Disabled Facilities Grant we were due to receive had not been announced by Government and so an estimated figure was included in the budget. We have now been informed and indeed received £526,577; this is £15,278 more than the estimate included in the budget.
- 3.8 The current forecast is that capital spending will come in on budget at yearend, that being £2,210,190.

#### 4. FINANCIAL IMPLICATIONS/EQUALITY IMPACT ASSESSMENT

4.1 The current forecast is for the Committee's net revenue expenditure to come in £50,000 over budget.

4.2 Equality Impact Assessment (INRA) not required.

#### 5. APPENDICES

5.1 Appendix 1 – Operational Services Committee Budget Monitoring Report – 30<sup>th</sup> June 2019.
