

Internal Audit Plan 2025/26

East Cambridgeshire District Council

Internal Audit Plan 2025/26

1. Introduction

- 1.1 This report sets out the proposed work of Internal Audit at East Cambridgeshire District Council for 2025/26 for review and approval by the Audit Committee.
- 1.2 Internal Audit provides independent assurance designed to add value and support the Council in achieving its priorities and objectives. To deliver this, East Cambridgeshire District Council commissions 210 days for delivery of the Internal Audit service on an annual basis.
- 1.3 The provision of assurance services is the primary role for Internal Audit in the public sector. This role requires the Chief Internal Auditor to provide an annual Internal Audit opinion based on an objective assessment of the framework of governance, risk management and control.
- 1.4 Internal Audit also provide consultancy services which are advisory in nature and are generally performed at the specific request of the organisation, with the aim of improving governance, risk management and control and contributing to the overall opinion. Any proposed consultancy/advisory work is clearly specified as such on the Audit Plan.
- 1.5 The Global Internal Audit Standards require the internal audit plan to:
- a) Consider the internal audit mandate and the full range of agreed-to internal audit services.
 - b) Specify internal audit services that support the evaluation and improvement of the organisation's governance, risk management, and control processes.
 - c) Consider coverage of information technology governance, fraud risk, the effectiveness of the organisation's compliance and ethics programs, and other high-risk areas.
 - d) Identify the necessary human, financial, and technological resources necessary to complete the plan.
 - e) Be dynamic and updated timely in response to changes in the organisation's business, risks operations, programs, systems, controls, and organizational culture.

2. The Audit Plan

- 2.1 The Audit Plan covers the two key component roles of Internal Audit:
- The provision of an independent and objective opinion to the Section 151 Officer and the Audit Committee on the degree to which risk management, control and governance support the achievement of Council objectives; and
 - The provision of an independent and objective consultancy service specifically to help line management improve the organisation's risk management, control and governance arrangements.
- 2.2 Central to the organisation, is the core delivery of the Council's objectives and corporate plan. The risk based audits are focused upon providing independent assurance over the controls in place to support delivery of those objectives and manage the strategic risks.

- 2.3 In order to protect the Council in delivering these objectives, it is essential that the Council's key corporate controls and policies are operating effectively to prevent the risk of financial loss, failure to comply with legislation, lack of accountability and reputational damage. These controls and policies cover both financial and non-financial systems and processes. These policies and controls must be complied with by all service areas to secure the Council's ongoing stability and service delivery.
- 2.4 Further protecting and underpinning the Council's ongoing delivery of its objectives are robust counter fraud controls and good governance. Without these, the Council would be exposed to the risk of fraud and corruption (both internally and externally), uninformed or non-transparent decision making, loss of accountability and direction, poor risk management and failure to embed and demonstrate ethical behaviours and values.
- 2.5 As such, the Audit Plan is designed to deliver independent, objective assurance on each of these areas – which are vital to the successful delivery of the Council's objectives and services.

Value for money

- 2.6 In addition to assurance over governance, risk management and controls, the Audit Plan should also provide assurance over the Council's delivery of value for money. Assurance over value for money is embedded within each audit assignment.
- 2.7 Some of the corporate level audits will provide specific assurances in relation to the value for money requirements – the audit of procurement compliance, for example, will seek assurance over the effective procurement of supplies and services.

Fraud risks

- 2.8 In the scoping of every audit assignment, consideration is given to any fraud risks associated with the processes under review. These are specifically considered for any relevant audit coverage.
- 2.9 In addition, the Internal Audit team also support with pro-active counter fraud work and are available to provide ad-hoc advice and assistance should any concerns be raised. The Council's whistleblowing policy provides Internal Audit as a point of contact for raising concerns and, should any investigation work be required, the team includes officers with the skillset and experience to deliver fact finding investigation work.

3. Planning process

- 3.1 In order to ensure that the Audit Plan for 2025/26 addresses the Council's key risks and adds value, the Chief Internal Auditor has identified and prioritised the areas for coverage by:
- Reviewing the Council's Risk Registers and Corporate Plan;
 - Considering the sources of assurance listed against each of the Council's risk entries, which may reduce the added value of an Internal Audit review and where work could be aligned with other assurance providers;
 - Identifying any areas of the Audit Universe (a list of potential areas for audit review across the Council) which have not been subject to Internal Audit review during the last four years;
 - Considering latest finance and performance reporting for areas of underperformance and spend;
 - Consulting the Audit Committee on risk areas for consideration; and

- Meeting with members of Corporate Management Team to discuss key risks and emerging risk areas for the year ahead and any areas where Internal Audit support would be beneficial either in an assurance or consultancy role.

3.2 The process has also incorporated consideration of potential audits which can be undertaken by drawing upon similar emerging themes from all councils with whom North Northamptonshire Council's Internal Audit team works.

3.3 Following this consultation and review, a draft Internal Audit Plan has been compiled and is provided in Table 1.

3.4 In order to ensure the Audit Plan addresses the Council's key risks and that the service is able to respond to any in year changes to the organisation's business, risks, operations, programs or systems, it is vital that the content of the Plan be subject to ongoing review throughout the financial year. To enable the service to be responsive and ensure all audit resources are used effectively and add maximum value, it is recommended that arrangements be agreed to allow changes to the Plan to be made between Audit Committee meetings, involving consultation between the Chief Internal Auditor, the S151 Officer and Chair of the Audit Committee.

Resources

3.5 The audit assignments are delivered by a team of audit staff including a mix of highly regarded professional qualifications (including CIPFA, ACCA and IIA) and extensive experience in the public and private sector. Absences and resource gaps/vacancies can be filled by the wider team, providing the resilience and stability of the delegated service.

3.6 Efforts are constantly made to ensure all clients benefit from the delegated arrangement and this work with multiple local authorities. This includes achieving efficiencies in delivering assignments, sharing of knowledge and experience and opportunities to deliver cross-cutting reviews.

3.7 Every year, all members of the team complete a declaration form to ensure and maintain independence and objectivity in conducting all assignments. As such, the Chief Internal Auditor can confirm the service's independence. The delegated service model also enables the Chief Internal Auditor to allocate audits to various officers over time, to avoid risks associated with over familiarity.

3.8 On an annual basis, the Chief Internal Auditor completes a self-assessment of the Internal Audit service against the relevant Internal Audit Standards. In doing so, the Chief Internal Auditor must consider whether the resource base and mix is adequate and would highlight to the S151 officer and Audit Committee if there were any concerns that the resources in place could not provide the required coverage to inform the annual Assurance Opinion.

Table 1: Draft Internal Audit Plan 2025/26

Assurance areas	Internal Audit assignments and assurances sought	Audit days	Risk entries	Corporate objective	Initial timing (financial year quarter)
Real time assurance work	Risk management Rolling reviews of risk register entries, to confirm that listed controls are in place and operating as stated; and actions recorded on the register are progressing as reported.	14	All	All	All year
Financial system key controls	Bank reconciliation Annual assurances over the bank reconciliation processes and controls.	6	C6	Sound financial management	Q4
	Accounts payable Cyclical assurances over key processes and controls for the payments system.	7	C6		Q4
	Accounts receivable Cyclical assurances over key processes and controls for the sundry debtors system.	6	C6		Q4
