Subsidy control declaration

There is a legal requirement to consider whether the grant could be a subsidy under the UK-EU Trade and Cooperation Agreement ("the TCA"), and therefore unlawful. Funding can constitute a subsidy if:

- a. assistance arises from the state or resources of the state
- b. it is given to an economic actor
- c. it confers an economic advantage on one or more economic actors and is specific insofar as it benefits, as a matter of law or fact, certain economic actors over others in relation to the production of certain goods or services
- d. and it has, or could have, an effect on trade or investment between the UK and EU

There is currently a minimal financial assistance threshold (previously known as a de minimis exemption) of circa. £350,000 calculated over a rolling three-year period. This means that an individual economic actor can lawfully receive up to a maximum of £350,000 in grants over three years without it constituting a subsidy. It is important to note that the £350,000 maximum is per recipient and must account for all grants received, over the three years whether from this fund or from other funds for different projects.

Applicants should seek and rely on their own legal advice regarding subsidy control compliance matters.

Please confirm that the organisation will not exceed Subsidy Allowance Limits by accepting this grant.

No, the group/organisation would not exceed the Subsidy Allowance limits by accepting the grant

Yes, the group/organisation would exceed the Subsidy Allowance limits by accepting the grant
