Further to your information request FOI/EIR 23/24-163, please find your question and our response below.

Request:

The total number of trees planted by your authority, either independently or in collaboration with community groups, charities, and/or businesses, for the years 2018, 2019, 2020, 2021, 2022, and the current year (2023). Additionally, it would be greatly appreciated if you could provide the approximate number of trees felled by your authority for each of these years.

Furthermore, I kindly seek information on the total land area currently owned by your authority, ideally expressed in hectares. In particular, I am interested to know what percentage of this land is covered by turf that is presently mown and maintained by your authority.

Response:

Please find attached to this email an excel document containing all of the ECDC trees felled from 2018-19, including those felled due to a requested from insurance companies. The information is presented in financial year form as is how our tree records are kept.

The total land area owned by the authority is estimated at 141.3 hectares. It is not recorded how much of that area is covered in turf.

This concludes your request FOI/EIR 23/24-163.

If information has been refused please treat this as a Refusal Notice for the purposes of the Act.
