

Has your council declared a climate emergency?

Please provide a breakdown of how many projects in the following categories your council has objected to, rejected and approved over the last three years, battery storage, wind and solar.

What is the average time taken to make a decision on each of the following types of projects, battery storage, solar and wind.

Further to my existing Freedom of Information Request sent on 3rd January 2024 concerning planning permission for wind, solar and battery projects, I would like to request the following information: Please provide a list of approved and not approved wind, solar and battery projects indicating MW/size for each project.
