

I am hunting for preferably old applications that proposed an isolated dwelling under special circumstances; known to date as paragraph 84 and formerly known as paragraph 55, 79 and 80.

I am looking for the best way of finding them as the keyword search often doesn't bring many or any up, so I am hoping you have record of them somewhere.

Policy paragraph 84e wording:

Planning policies and decisions should avoid the development of isolated homes in the countryside unless one or more of the following circumstances apply:

e) the design is of exceptional quality, in that it: - is truly outstanding, reflecting the highest standards in architecture, and would help to raise standards of design more generally in rural areas; and - would significantly enhance its immediate setting, and be sensitive to the defining characteristics of the local area.
